NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2008**1. Accounting Policies****a Basis of Accounting**

The Accounts have been prepared in accordance with applicable accounting standards under the historical cost accounting rules and in accordance with the financial reporting standard for smaller entities (effective January 2007)

b Depreciation

Depreciation is calculated so as to write off the cost of tangible fixed assets by the reducing balance method as follows -

Plant	20%
Motor Vehicle	20%

c Stocks and Work in Progress

These are valued at the lower of cost and net realisable value. In respect of work in progress, cost includes all direct costs and an appropriate proportion of overheads

d Deferred Taxation

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. In accordance with FRS19, deferred tax is not recognised on revaluation gains. Deferred taxation is measured on a non-discounted basis at the tax rates that are expected to apply in the periods in which the timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

2. Turnover

Turnover represents amounts invoiced by the company in respect of work done during the year excluding value added tax
