Turnover

Turnover represents amounts chargeable, net of value added tax, in respect of the sale of goods and services to customers

Grants of a revenue nature are credited to income so as to match them with the expenditure to which they relate

Depreciation

Depreciation is provided on tangible fixed assets so as to write off the cost or valuation, less any estimated residual value, over their expected useful economic life as follows

Asset class	Depreciation method and rate
Plant and machinery	25% reducing balance
Fixtures, fittings and equipment	25% reducing balance
Motor vehicles	25% reducing balance

Stock

Stock and work in progress are valued at the lower of cost and net realisable value, after due regard for obsolete and slow moving stocks. Net realisable value is based on selling price less anticipated costs to completion and selling costs. Cost includes all direct costs and an appropriate proportion of fixed and variable overheads
