**NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 OCTOBER 2000**

1. STATEMENT OF ACCOUNTING POLICIES

The financial statements have been prepared under the historical cost convention.

Cash flow

The accounts do not include a cash flow statement because the company, as a small reporting entity, is exempt from the requirement to prepare such a statement under Financial Reporting Standard 1: "Cash flow statements".

Turnover

Turnover represents the total invoice value, excluding value added tax, of goods sold and services rendered during the year.

Depreciation of tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its useful life:

Plant and machinery	20% reducing balance method
Motor vehicles	25% reducing balance method
Equipment, fixtures and fittings	15% reducing balance method

Stocks

Stocks are stated at the lower of cost and net realisable value.

Net realisable value is based on estimated selling price less further costs to completion and disposal.

Leasing and hire purchase commitments

Assets held under finance leases and hire purchase contracts are capitalised in the balance sheet and are depreciated over their estimated useful lives. The interest element of the rental obligations is charged to the profit and loss account over the period of the lease.

Lease payments under operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred.
