Notes to the Abbreviated Financial Statements
for the year ended 31 July 2005

1. Accounting policies

Basis of Accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective June 2002).

Consolidation

In the opinion of the directors, the company and its subsidiary undertakings comprise a small group. The company has therefore taken advantage of the exemption provided by Section 248 of the Companies Act 1985 not to prepare group accounts.

Turnover

The turnover shown in the profit and loss account represents amounts invoiced during the year, exclusive of Value Added Tax.

Fixed Assets

All fixed assets are initially recorded at cost.

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Leasehold Property	-	Straight line over the period of the lease
Plant & Machinery	-	10% straight line
Fixtures and Fittings	-	25% reducing balance

Stocks

Stocks are stated at the lower of cost and net realisable value. Cost is computed on a first in first out basis. The cost of work in progress and finished goods include all production overheads and depreciation and the attributable proportion of indirect overheads based on the normal level of activity. Net realisable value is based on estimated selling price less the estimated cost of disposal.

Hire Purchase Agreements

Assets held under hire purchase agreements are capitalised and disclosed under tangible fixed assets at their fair value. The capital element of the future payments is treated as a liability and the interest is charged to the profit and loss account on a straight line basis.

Operating Lease Agreements

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the period of the lease.

Deferred Taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed by the balance sheet date and are not regarded as permanent differences. A deferred tax asset is recognised only to the extent that its recovery is regarded as reasonably certain.
