Notes to the Abbreviated Accounts
for the year ended 30 June 2014

1 Accounting policies

Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

Turnover

Turnover represents the value, net of value added tax and discounts, of goods provided to customers and work carried out in respect of services provided to customers.

Depreciation

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

Plant and machinery	25% straight line
Fixtures and Fittings	20% reducing balance

Stocks

Stock is valued at the lower of cost and net realisable value.

Pensions

The accounts disclose net liabilities of £242,342 at 30 June 2014. Notwithstanding this position the accounts have been prepared on a going concern basis. It is anticipated that the financial support of Mrs. E A Winter Morris and the company's bankers will continue. Should this support be withdrawn the company may be unable to continue to trade and adjustments would have to be made to reduce the value of the assets to their recoverable amounts and to provide for any further liabilities which any arise.
