ACORN WORKS LIMITED

NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 AUGUST 2008

1. ACCOUNTING POLICIES

1.1 Basis of preparation of financial statements

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2007).

1.2 Turnover

Where work is undertaken in accordance with a signed order or agreement, the revenue arising is recognised, net of value added tax, as the contractual obligations are fulfilled.

1.3 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Plant & machinery	-	25%	reducing balance
Motor vehicles	-	25%	reducing balance
Fixtures & fittings	-	25%	reducing balance
Office equipment	-	25%	reducing balance

1.4 Stocks

Stocks and work in progress are stated at the lower of cost and net realisable value. Cost is based on direct costs incurred. Net realisable value is based upon estimated selling price allowing for all further costs of completion and disposal. Where projects span the year end, any profit element is recognised as it is earned in respect of amounts invoiced on account included in turnover.

1.5 Hire purchase

Assets obtained under hire purchase contracts are capitalised as tangible fixed assets. Assets acquired by hire purchase are depreciated over their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

1.6 Operating leases

Rentals under operating leases are charged on a straight line basis over the lease term.

1.7 Deferred taxation

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation.

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

Deferred tax assets and liabilities are not discounted.
