The financial statements were approved by the Board of Directors on 31 July 2014 and were signed on its behalf by:

Mr D A Ogden - Director

NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 31 MAY 2014

1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net amounts invoiced during the year (excluding value added tax) adjusted for accrued and deferred income where applicable. Turnover is recognised on despatch of goods.

Fixed assets

All fixed assets are initially recorded at cost.

Depreciation

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Improvements to property - Over the length of the lease

Plant and machinery - 25% on reducing balance

Furniture & equipment - 25% on reducing balance

Motor vehicles - 25% on reducing balance

Work in progress

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Work in progress includes labour and direct expenditure.

Taxation

The charge for taxation is based on the profit for the year and takes into account taxation deferred.

Current tax is measured at amounts expected to be paid using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or right to pay less or to receive more, tax.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.

Dividends

Equity dividends are recognised when they become legally payable. Interim equity dividends are recognised when paid. Final equity dividends are recognised when approved by the shareholders at an annual general meeting.
