NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 31 DECEMBER 2011

1 ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Investment property

In accordance with Statement of Standard Accounting Practice No 19, certain of the company's properties are held for long-term investment and are included in the Balance Sheet at their open market values. The surplus(es) or deficit(s) on revaluation of such properties are transferred to the investment property revaluation reserve. Depreciation is not provided in respect of freehold investment properties.

This policy represents a departure from statutory accounting principles, which require depreciation to be provided on all fixed assets. The directors consider that this policy is necessary in order that the Accounts give a true and fair view because current values and changes in current values are of prime importance rather than the calculation of systematic annual depreciation. Depreciation is only one of many factors reflected in the valuation and the amount which might otherwise have been shown cannot be separately identified or quantified.

Income from property

This represents rents receivable and insurances recharged, excluding value added tax.
