1 Accounting policies

Basis of preparation

The Financial Statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Exemption from preparing group accounts

The company and its subsidiary undertaking comprise a small group. The company has taken advantage of the exemption provided by s 398 of the Companies Act 2006 from preparing group accounts. The financial statements therefore present information about the company as an individual undertaking and not about its group. As permitted by accounting standards transactions

Turnover

Turnover represents the value, net of value added tax and discounts, of goods and services provided to customers during the year.

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Expenditure on website maintenance and updates is written off in the year incurred. Expenditure incurred on the website development is capitalised only to the extent that it is certain that its future recoverability can reasonably be regarded as assured. Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives:

Furniture and fittings	20% straight line
Computer equipment	33% straight line
Website development costs	20% straight line

Intangible fixed assets

Expenditure on patents and registrations, where a new patent or registration is established, has been capitalised as an intangible fixed asset and amortised over their expected useful lives of ten years on a straight line basis.

Investments

Investments held as fixed assets are stated at cost less provisions for any permanent diminution in value.

Deferred taxation

Full provision is made for deferred taxation resulting from timing differences between the recognition of gains and losses in the accounts and their recognition for tax purposes. Deferred taxation is calculated on an un-discounted basis at the tax rates which are expected to apply in the periods when the timing differences will reverse.

Foreign currencies

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the balance sheet date. All differences are taken to the profit and loss account.
