AMB Stainless and Non Ferrous Limited

Notes to the abbreviated financial statements for the year ended 30 June 2012

1. Accounting policies

1.1. Accounting convention

The accounts are prepared under the historical cost convention and comply with financial reporting standards of the Accounting Standards Board

1.2. Turnover

Turnover represents the total invoice value, excluding value added tax, of sales made during the year

1.3. Tangible fixed assets and depreciation

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows

Plant and machinery	-	25% reducing balance
Fixtures, fittings and equipment	-	33% reducing balance

1.4. Leasing

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce constant periodic rates of charge on the net obligations outstanding in each period

1.5. Stock

Stock is valued at the lower of cost and net realisable value

1.6. Pensions

The pension costs charged in the financial statements represent the contribution payable by the company during the year

1.7. Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax, with the following exceptions

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date

1.8 Financial instruments

Financial instruments are classified and accounted for, according to the substance of contractual arrangement, as either financial assets, financial liabilities or equity instruments, as defined in FRS 25, Financial Instruments Disclosure and Presentation. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.
