ULTIMA PROPERTIES LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2007

1 ACCOUNTING POLICIES

1.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2005)

1.2 Deferred taxation

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse

Deferred tax assets and liabilities are not discounted

1.3 Investment Property

In accordance with the FRSE (effective June 2002)

- i) Investment properties are not subject to periodic charges for depreciation, and are
- ii) Included in the balance sheet at their open market value

This treatment represents a departure from the requirements of the Companies Act 1985 which requires assets which have a finite life to be depreciated where their cost (or valuation) is greater than their estimated residual value (as assessed at the date of acquisition or valuation). The director considers that, following the reasoning in the FRSE, depreciating the properties would not give a true and fair view, because they are held for investment and not consumption

2 TURNOVER

Turnover represents income receivable under operating leases, exclusive of VAT and sales of fixed assets. All turnover is derived in the UK and is accounted for on a receivable basis

The operating profit is stated after charging

	2007 £	2006 £
