		<u><u>2,004,358</u></u>	<u><u>1,702,860</u></u>

For the year ended 31 May 2024 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

Directors' responsibilities:

- The members have not required the company to obtain an audit of its accounts for the year in question in accordance with section 476; and
- The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

These accounts and reports have been prepared and delivered in accordance with the provisions applicable to companies subject to the small companies regime and the option not to file the profit and loss account has been taken.

These accounts were approved and authorised for issue by the Board on 16/01/2025 and signed on its behalf by:

Liam Milner

Signed on 16/01/25 @ 07:37

L J Milner

Director

The address of its registered office and principal place of business is:

Rectory Gas Supplies
Sparrow Hall
Scrayingham
York
YO41 1JE

2 Summary of significant accounting policies

Basis of preparation

The accounts have been prepared in accordance with applicable accounting standards including Section 1A of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (FRS102) and the Companies Act 2006. The accounts have been prepared on a going concern basis under the historical cost convention, modified to include certain items at fair value. The presentation currency is £ sterling and the accounts have been rounded to the nearest £1.

The significant accounting policies applied in the preparation of these accounts are set out below. These policies have been consistently applied to all years presented, unless otherwise stated.

Group accounts not prepared

The company is part of a small group. The company has taken advantage of the exemption provided by Section 399 of the Companies Act 2006 and has not prepared group accounts.

Turnover

Turnover is measured at fair value of the consideration received or receivable, net of discounts and value added tax. Turnover includes revenue earned from the sale of goods.

Turnover from the sale of goods is recognised when the significant risks and rewards of ownership of the goods has transferred to the buyer. This is usually when the goods have been delivered to customers such that the risks and rewards of ownership have been transferred to them.

Pension contributions

The company has a defined contribution pension scheme. The pension costs charged to the profit and loss account are the contributions payable in respect of the accounting period.

Taxation

The tax expense for the period comprises current tax. Tax is recognised in profit or loss, except that a charge attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

Current tax is recognised for the amount of corporation tax payable in respect of the taxable profit for the year using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed by the balance sheet date. Deferred tax assets are only recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is calculated using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Intangible fixed assets

Intangible fixed assets are measured at cost less accumulated amortisation and any accumulated impairment losses.

Goodwill

Goodwill arising on the acquisition of an entity represents the excess of the cost of acquisition over the Company's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the entity recognised at the date of acquisition. Goodwill is initially recognised as an asset at cost and is subsequently measured at cost less accumulated amortisation and accumulated impairment losses.

Amortisation

Amortisation is charged so as to allocate the cost of intangible assets less their residual values over their estimated useful lives. The annual rates and method of depreciation are as follows:-

Asset class	Amortisation method and rate
Goodwill	10 years straight line

Tangible fixed assets

Tangible fixed assets are measured at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation

Depreciation is calculated to write down the cost less estimated residual value of all tangible fixed assets, over their expected useful lives. The annual rates and methods of depreciation are as follows:-

Asset class	Depreciation method and rate
Leasehold property improvements	20% straight line basis
Plant and machinery	20% straight line basis
Cylinders and bulk LPG tanks	6.67 %,10% or 20% straight line basis
Furniture, fittings and office equipment	20% or 33.33% straight line basis
Motor vehicles	16.67% or 25% straight line basis

Impairment of fixed assets

Fixed assets are assessed at each reporting date to determine whether there is any indication that the assets are impaired. If there is an indication of possible impairment, the recoverable amount of any affected asset is estimated and compared to its carrying amount. If the estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognised in the profit and loss account. The reversal of an impairment loss is recognised immediately in the profit and loss account.

Investments

Investments in equity shares which are not publicly traded are measured at cost less impairment. Dividends on equity securities are recognised in income when receivable.

Stocks

Stocks are stated at the lower of cost and estimated selling price less costs to complete the sell.

The cost of finished goods and work in progress comprises direct materials and, where applicable, direct labour costs and an appropriate proportion of overhead expenses.

Debtors

Short term debtors are measured at transaction price, less any impairment.

Cash at bank and in hand

Cash at bank and in hand comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.

Creditors

Short term creditors are measured at transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are subsequently measured at amortised cost using the effective interest method.

Hire purchase and leasing

Fixed assets acquired under finance leases and hire purchase contracts are included in the balance sheet at cost and an appropriate provision made for depreciation. The outstanding liabilities under such agreements less interest not yet due are included in creditors. Interest attributable to each period is charged to the profit and loss account.

Operating lease rentals are charged to the profit and loss account on a straight line basis over the period of the lease.

3 Employees

Employee costs, including directors, during the year:

	2024 £	2023 £
Wages and salaries	566,430	457,525
