Notes to the Abbreviated Accounts for the Period Ended 30th June 2011

1. Accounting policies

Basis of measurement and preparation of accounts

The financial statements are prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008). The particular accounting policies adopted are described below.

Turnover policy

Turnover represents the invoiced value of sales during the period, exclusive of value added tax.

Tangible fixed assets depreciation policy

Tangible fixed assets are written off over their estimated useful lives. Freehold land is not depreciated and other property, plant and equipment are depreciated over their estimated useful lives on a straight line basis, principally as follows:

Computer equipment / website 4 years Furniture and fittings 4 years

Other accounting policies

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax, with the following exception: Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable profits from which the future reversal of the underlying timing differences can be deducted. Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.
