Stocks

Stock is valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Deferred Taxation

Provision is made at the current rates for taxation deferred in respect of all material timing differences except to the extent that, in the opinion of the director, there is a reasonable probability that the liability will not arise in the foreseeable future.

Hire purchase and leasing agreements

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase agreements are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term whichever is the shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.
