NOTES TO THE ABBREVIATED ACCOUNTS

FOR THE PERIOD ENDED 31ST MARCH 2013

1 ACCOUNTING POLICIES

1.1 Basis of preparation of financial statements

The full financial statements, from which these abbreviated accounts have been extracted have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

1.2 Going Concern

The financial statements of the company have been prepared on a going concern basis, the validity of which is dependent on the continued support of the company's directors and shareholders. The director is satisfied that suitable funds will continue to be made available for at least 12 months from the date of his approval of these financial statements and that the profits generated will enable the company to meet its working capital requirements for the foreseeable future.

1.3 Turnover

Turnover represents monies receivable exclusive of VAT.
Revenue is recognised in the period to which it relates.

1.4 Tangible Fixed Assets and Depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected lives on the following bases:

Plant & Machinery	33 33% straight line
Motor Vehicles	25% straight line
Fixtures & Fittings	33 33% straight line

1.5 Operating Leases

Rentals under operating leases are charged to the Profit & Loss account on a straight line basis over the lease term.

1.6 Deferred Tax

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation.

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable tax profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

Deferred tax assets and liabilities are not discounted.
