1. Accounting policies

1.1. Accounting convention

The accounts are prepared under the historical cost convention modified to include the revaluation of certain fixed assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.2. Turnover

Turnover represents the total value of sales made during the year and is recognised on the creation of an enforceable debt.

1.3. Goodwill

Goodwill has been capitalised.

1.4. Patents

Patents are valued at cost less accumulated amortisation.

1.5. Tangible fixed assets and depreciation

Depreciation is provided at rates calculated to write off the cost or valuation less residual value of each asset over its expected useful life, as follows:

Fixtures, fittings and equipment	- 25% reducing balance
-------------------------------------	------------------------

1.6. Stock and work in progress

Work in progress is valued at the lower of cost and net realisable value.

1.7. Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax, with the following exceptions:

Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold;

Provision is made for deferred tax that would arise on remittance of the retained earnings of overseas subsidiaries, associates and joint ventures only to the extent that, at the balance sheet date, dividends have been accrued as receivable;

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.
