EXCEL STAIRS LIMITED
NOTES TO THE ACCOUNTS
FOR THE YEAR ENDED 30th JUNE 2010

1) **Accounting Policies**

The following accounting policies have been consistently applied in dealing with items which are considered material in relation to the company's financial statements.

a) **Basis of Accounting**

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

These financial statements have been prepared on a going concern basis which assumes that the company will continue to trade. The validity of this assumption is dependent upon the continued support of the company's directors and creditors. If the company were unable to continue to trade, adjustments would have to be made to reduce the value of assets to their recoverable amount, to provide for any further liabilities that might arise and to reclassify fixed assets as current assets.

b) **Depreciation**

Depreciation has been calculated so as to write off the cost of tangible fixed assets over their estimated useful lives, as follows:

Motor Vehicles	25% on net book value
Plant & Machinery	25% on net book value
Software	35% on net book value
Office Equipment	20% - 35% on net book value

c) **Stocks and Work In Progress**

These are valued at the lower of cost and net realisable value.

d) **Hire Purchase Commitments**

Hire Purchase contracts are accounted for as being both an asset and an obligation to pay future repayments with the interest element being charged to the profit and loss account on a straight line basis over the term of the contract.
