WORLD HERITAGE LIMITED
NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE PERIOD 22ND MARCH 2002 TO 30TH APRIL 2003

1. Accounting Policies

a. Basis of preparation of accounts

The accounts are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective June 2002).

b. Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation.

Depreciation is provided at rates calculated to write off the cost of fixed assets less their estimated residual value, over their expected useful lives on the following bases:

Exhibition costs	15% reducing balance basis
Fixtures, fittings and equipment	20% reducing balance basis
Motor vehicles	25% reducing balance basis

c. Stocks and work in progress

Stocks and work in progress are valued at the lower of cost and net realisable value after making due allowance for obsolete and slow moving stocks. Cost includes all direct costs and an appropriate proportion of fixed and variable overheads.

d. Deferred taxation

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the director considers that it is more likely than not that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred taxation is measured on a non-discounted basis at the average tax rates that would apply when the timing differences are expected to reverse, based on tax rates and laws that have been enacted by the balance sheet date.

e. Intangible fixed assets and amortisation

Goodwill is the difference between the amounts paid on the acquisition of a business and the fair value of the separable net assets. It is amortised to the profit and loss account over its estimated economic life of twenty years.

f. Turnover

Turnover comprises the invoiced value of goods sold and services supplied by the company, net of value added tax and trade discounts.

The operating profit is stated after charging:
