1 Accounting policies

Basis of preparation

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents the total invoice value, excluding value added tax, of sales made during the year. Income is recognised based on the date goods are despatched and the level of completion of services.

Government grants

The grants received were netted off against the costs to which they related to.

Depreciation

Tangible fixed assets are initially recorded at cost. Depreciation is provided on tangible fixed assets so as to write off the cost, less any estimated residual value, over their expected useful economic life as follows:

Asset class	Depreciation method and rate
Fixtures, fittings and equipment	25% reducing balance
Motor vehicles	30% reducing balance
Office equipment	30% and 50% reducing balance

Stock

Stock is valued at the lower of cost and net realisable value, after due regard for obsolete and slow moving stocks. Net realisable value is based on selling price less anticipated costs to completion and selling costs.

Deferred tax

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes, which have arisen but not reversed by the balance sheet date, except as required by Financial Reporting Standard for Smaller Entities. Deferred tax is measured at the rates that are expected to apply in the periods when the timing differences are expected to reverse, based on the tax rates and law enacted at the balance sheet date.

Foreign currency

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at the rates of exchange prevailing at the accounting date. Transactions in foreign currencies are recorded at the date of the transactions. All differences are taken to the Profit and Loss account.

Hire purchase and leasing

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce constant periodic rates of charge on the net obligations outstanding in each period. Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

Pensions

The pension costs charged in the financial statements represent the contribution payable by the company during the year.

2 Fixed assets

	Tangible assets	Total
	£	£
Cost		
At 1 January 2012	74,718	74,718
Additions	<u>661</u>	<u>661</u>
