NOTES TO THE ACCOUNTS – YEAR ENDED 31 DECEMBER 2007

1 Accounting policies

a) Basis of accounting

The accounts are prepared under the historical cost convention, and in accordance with United Kingdom law and applicable accounting standards

b) Taxation

The company is subject to estate trust tax. Estate trust tax is provided at amounts expected to be paid, using the tax rates and laws that have been enacted or substantially enacted by the balance sheet date.

c) Cash flow statement

The company has taken advantage of the exemption permitted by FRS1 (Revised), whereby a cash flow statement need not be prepared by a small company as defined by the Companies Act 1985.

d) Investment property

The company's property is held for long-term investment and is included in the balance sheet at directors' valuation which is considered not to be materially different from open market value. The surplus or deficit revaluation of such properties is transferred to the investment property revaluation reserve.

The freehold investment property is not amortised. This policy represents a departure from statutory accounting principles, which require depreciation to be provided on all fixed assets. The directors consider that this policy is necessary in order that the financial statements may give a true and fair view.

The turnover is attributable to the one principal activity of the company.
