Abbreviated Balance Sheet as at 31 October 2011

The directors consider that the company is entitled to exemption from the requirement to have an audit under the provisions of s 477 of the Companies Act 2006. Members have not required the company, under s 476 of the Companies Act 2006, to obtain an audit for the year ended 31 October 2011. The directors acknowledge their responsibilities for ensuring that the company keeps accounting records which comply with s 386 of the Companies Act 2006, and for preparing accounts which give a true and fair view of the state of affairs of the company as at 31 October 2011 and of its profit for the year then ended in accordance with the requirements of s 396, and which otherwise comply with the requirements of the Act relating to the accounts so far as applicable to the company.

The abbreviated accounts, which have been prepared in accordance with the special provisions relating to companies subject to the small companies regime within Part 15 of the Companies Act 2006, were approved by the board on 30 July 2012 and signed on its behalf

Notes to the Abbreviated Accounts for the Year Ended 31 October 2011

1 Accounting policies

1.1 Basis of preparation of financial statements

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

1.2 Turnover

Turnover comprises the invoiced value of goods and services supplied by the company, net of Value Added Tax and trade discounts

1.3 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases

Furniture, fittings and equipment	25% per annum reducing balance basis
-----------------------------------	--------------------------------------

1.4 Stocks and work in progress

Stocks and work in progress are valued at the lower of cost and net realisable value after making due allowance for obsolete and slow-moving stocks

1.5 Deferred taxation

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the director considers that it is more likely than not that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred taxation is measured on a non-discounted basis at the average tax rates that would apply when the timing differences are expected to reverse, based on tax rates and laws that have been enacted by the balance sheet date.
