NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 OCTOBER 2004

1. ACCOUNTING POLICIES

(a) *Accounting basis and standards*

The financial statements have been prepared under the historical cost convention.

(b) *Depreciation*

Depreciation on fixed assets is provided at rates estimated to write off the cost or revalued amounts, less estimated residual value, of each asset over its expected useful life as follows:-

Freehold buildings:	2% straight line
Office equipment:	25% straight line
Fixtures and fittings:	25% straight line
Goodwill:	16.67% straight line

(c) *Turnover*

Turnover represents the invoiced value of services provided net of value added tax.

(d) *Deferred taxation*

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred taxation is measured on a non-discounted basis at the average tax rates that would apply when the timing differences are expected to reverse, based on tax rates and laws that have been enacted by the balance sheet date.

(e) *Goodwill*

Goodwill is determined by comparing the amount paid on the acquisition of a business and the aggregate fair value of its separable net assets, and is written off over its estimated economic life.
