NOTES TO THE ABBREVIATED ACCOUNTS

YEAR ENDED 31 JULY 2012

1 ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention, modified to include the revaluation of certain fixed assets, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Turnover

Turnover represents rental income receivable by the company under the lease agreement and is recognised on the date when the rent is due

Fixed assets

All fixed assets are initially recorded at cost

Depreciation

No depreciation has been charged on the fixtures and fittings as these are part of the Investment property. The tenants are fully responsible for the upkeep and maintenance of the fixtures and fittings

Investment properties

Investment properties are included in the Balance Sheet at their open market value in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008) and are not depreciated. This treatment is contrary to Companies Act 2006 which states that fixed assets should be depreciated but is, in the opinion of the directors, necessary in order to give a true and fair view of the financial position of the company. The tenants are fully responsible for the upkeep and maintenance of the assets

If the investment property's open market value at the year end is less than the value brought forward the deficit is initially made against any revaluation surplus previously made and then any excess is charged to the profit and loss account as an impairment
