NOTES TO THE ABBREVIATED ACCOUNTS
for the Year Ended 31 December 2012

1 ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life

Plant and machinery etc - 20% on cost

Investment property

In accordance with the FRSSE, (i) investment property values are reviewed annually by the directors and revalued periodically by external valuers on an open market basis. The aggregate surplus or deficit is taken to the statement of recognised gains and losses (being a movement on an investment revaluation reserve), unless a deficit (or its reversal) is expected to be permanent, in which case it is charged (or credited) to the profit and loss account, and (ii) no depreciation or amortisation is provided in respect of freehold investment properties. The treatment under (ii) above is a departure from the requirement of the Companies Act 2006 which requires that depreciation is charged to write off the value of the investment properties, less any residual value, over the period of the asset's useful economic life. The directors consider that the accounting policy adopted is necessary for the financial statements to give a true and fair view.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Foreign currencies

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction. Exchange differences are taken into account in arriving at the operating result.
