**NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 31 DECEMBER 2011**

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net invoiced sales of goods and services, excluding value added tax.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

Plant and machinery etc - 25% straight line basis

Investment property

The company's investment properties are held for long-term investment. Investment properties are accounted for in accordance with SSAP 19, as follows:

(i) investment properties are revalued annually. The surplus or deficit on revaluation is transferred to the revaluation reserve unless a deficit below original cost, or its reversal, on an individual investment property is expected to be permanent, in which case it is recognised in the profit and loss account for the year; and

(ii) no depreciation is provided in respect of leasehold investment properties where the lease has over 20 years to run.

Although the Companies Act would normally require the systematic annual depreciation of fixed assets, the directors believe that the policy of not providing depreciation is necessary in order for the accounts to give a true and fair view, since the current value of investment properties, and changes to that current value, are of prime importance rather than a calculation of systematic annual depreciation. Depreciation is only one of the many factors reflected in the annual valuation, and the amount which might otherwise have been included cannot be separately identified or quantified.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date

Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.
