1. Accounting policies

Basis of accounting

The accounts have been prepared under the historical cost convention as modified by the revaluation of certain fixed assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

The company ceased trading in 2006, but the directors continue to pursue options for resuming trading. The company was in a stable financial position throughout the period and at the date these financial statements were approved

The accounts do not include a cash flow statement because the company, as a small reporting entity, is exempt from the requirement to prepare such a statement (under the Financial Reporting Standard for Smaller Entities (effective April 2008))

Turnover

Turnover represents the net invoiced sale of goods, excluding VAT

Stocks

Stocks and work in progress are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items. Cost includes all direct expenditure and an appropriate proportion of fixed and variable overheads. As the company was not trading, all stocks had been written down to nil value in previous accounting periods
