NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 JULY 2017

1. STATUTORY INFORMATION

Newling Fruitgrowers Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

The presentation currency of the financial statements is the Pound Sterling (£).

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

These financial statements for the year ended 31 July 2017 are the first financial statements of Newling Fruitgrowers Limited prepared in accordance with Financial Reporting Standard 102. The date of transition was 1 August 2015. There were no transition adjustments.

The directors believe that the company is well placed to manage its financial risks successfully and have reasonable expectation that it has adequate resources to continue in operational existence for the foreseeable future. Consequently, it continues to adopt the going concern basis of accounting in preparing the annual financial statements.

Turnover

Turnover represents net invoiced sales of goods and services, excluding value added tax.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

Leasehold improvements	- 4% on cost
Plant and machinery	- 25% on reducing balance
Motor vehicles	- 25% on reducing balance

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.
