For the year ending 31 August 2015 the company was entitled to exemption under section 477 of the Companies Act 2006 relating to small companies.

The members have not required the company to obtain an audit in accordance with section 476 of the Companies Act 2006.

The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime and in accordance with the Financial Reporting Standard for Smaller Entities (effective 2008).

The financial statements were approved by the Board of Directors on 24 May 2016

SIGNED ON BEHALF OF THE BOARD BY:

Name: Stephen Wyatt Craddock

Status: Director

Notes to the Abbreviated Accounts for the Period Ended 31st August 2015

1. Accounting policies

Basis of measurement and preparation of accounts

These financial statements have been prepared in accordance with applicable United Kingdom accounting standards, including the Financial Reporting Standard for smaller entities effective January 2015 and with the Companies Act 2006. The financial statements have been prepared on the historical cost basis and are presented in Sterling (£).

Turnover policy

Turnover is measured at the fair value of the consideration received or receivable, net of discounts and value added taxes. Turnover includes revenue earned from the rendering of services. Turnover from the rendering of services is recognised by reference to the stage of completion of the contract.

Tangible fixed assets depreciation policy

Tangible fixed assets are measured at cost less accumulated depreciation and any accumulated impairment losses. Depreciation is calculated to write down the cost less estimated residual value of all tangible fixed assets over their expected useful lives, using the straight-line method. The rate used is 25%.

Other accounting policies

Debtors Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment. Creditors Short term trade creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method. Taxation Current tax is recognised for the amount of income tax payable in respect of the taxable profit for the current or past reporting periods using the tax rates and laws that have been enacted or substantively enacted by the reporting date. Deferred tax is calculated using the tax rates and laws that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference and is recognised in respect of all timing differences at the reporting date, except as otherwise indicated. Deferred tax assets are only recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. If and when all conditions for retaining tax allowances for the cost of a fixed asset have been met, the deferred tax is reversed.
