NOTES TO THE ABBREVIATED ACCOUNTS

FOR THE YEAR ENDED 31 DECEMBER 2013

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

The company has net current liabilities of £60,417 at the balance sheet date. However the directors and family members are owed £16,007 of this total, which together with the bank overdraft facility assists in company cashflow, to allow the day to day requirements to be met. In addition long term directors and family loans totalling £47,426 will only be repaid as funds allow, to ensure continued cashflow support. In addition, the company has now come out of the sales factoring arrangement, which should reduce charges and expenses during the current year.

The directors consider that the company will continue to operate within the facility currently agreed with the bankers, and expect the facility to be renewed for a further year.

However, the margin of facilities over requirements is not large and, inherently there can be no certainty in relation to these matters. On this basis, the directors consider it appropriate to prepare the financial statements on the going concern basis. The financial statements do not include any adjustments that would result from a withdrawal of the overdraft facility by the bankers, or loans from family members and directors.

1.2 Turnover

Turnover represents amounts receivable for goods and services net of VAT and trade discounts.

1.3 Goodwill

Acquired goodwill is written off in equal annual instalments over its estimated useful economic life of 20 years.

1.4 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Fixtures, fittings & equipment	15% Reducing balance
--------------------------------	----------------------

1.5 Stock

Stock is valued at the lower of cost and net realisable value.
