For the year ending 30 April 2014 the company was entitled to exemption under section 477 of the Companies Act 2006 relating to small companies.

The members have not required the company to obtain an audit in accordance with section 476 of the Companies Act 2006.

The director acknowledges his responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime and in accordance with the Financial Reporting Standard for Smaller Entities (effective 2008).

Approved by the director on 23 July 2014

A R Steward
Director

The notes on pages 2 to 4 form an integral part of these financial statements.

1 Accounting policies

Basis of preparation

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (Effective April 2008).

Turnover

Turnover represents amounts chargeable, net of value added tax, in respect of the sale of goods and services to customers.

Goodwill

Positive goodwill is capitalised, classified as an asset on the balance sheet and amortised on a straight line basis over its useful economic life. It is reviewed for impairment at the end of the first full financial year following the acquisition and in other periods if events or changes in circumstances indicate that the carrying value may not be recoverable.

Amortisation

Amortisation is provided on intangible fixed assets so as to write off the cost, less any estimated residual value, over their expected useful economic life as follows:

Asset class	Amortisation method and rate
Goodwill	amortised evenly over 15 years

Depreciation

Depreciation is provided on tangible fixed assets so as to write off the cost or valuation, less any estimated residual value, over their expected useful economic life as follows:

Asset class	Depreciation method and rate
Land & freehold property	Not depreciated
Improvements to property	Over the term of the lease
Plant and machinery	20% reducing balance method
Fixtures and fittings	20% reducing balance method
Motor vehicles	25% reducing balance and 25% straight line method
Computer equipment	33% straight line method

Deferred tax

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes, which have arisen but not reversed by the balance sheet date, except as required by the FRSSE. Deferred tax is measured at the rates that are expected to apply in the periods when the timing differences are expected to reverse, based on the tax rates and law enacted at the balance sheet date.

Hire purchase and leasing

Rentals payable under operating leases are charged in the profit and loss account on a straight line basis over the lease term. Assets held under finance leases, which are leases where substantially all the risks and rewards of ownership of the asset have passed to the company, are capitalised in the balance sheet as tangible fixed assets and are depreciated over the shorter of the lease term and their useful lives. The capital elements of future obligations under the leases are included as liabilities in the balance sheet. The interest element of the rental obligation is charged to the profit and loss account over the period of the lease and represents a constant proportion of the balance of capital repayments outstanding. Assets held under hire purchase agreements are capitalised as tangible fixed assets and are depreciated over the shorter of the lease term and their useful lives. The capital element of future finance payments is included within creditors. Finance charges are allocated to accounting periods over the length of the contract and represent a constant proportion of the balance of capital repayments outstanding.

2 Fixed assets

	Intangible assets £	Tangible assets £	Total £
Cost			
At 1 May 2013	37,250	765,168	802,418
