**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30TH SEPTEMBER 2017**

1. STATUTORY INFORMATION

Elf Software Limited is a private company, limited by shares, registered in England and Wales. The company's registered number is 05020121 and the registered office address is Quantum House, Hadley Park East, Telford, Shropshire. TF1 6QJ

The principal activity of the company is that of software development.

2. STATEMENT OF COMPLIANCE

These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006.

3. ACCOUNTING POLICIES

Basis of preparing the financial statements

The financial statements have been prepared on the going concern basis and under the historical cost convention.

Functional currency

The financial statements are prepared in sterling which is the functional currency of the company.

Related party exemption

The company has taken advantage of exemption, under the terms of Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland', not to disclose related party transactions with wholly owned subsidiaries within the group.

Significant judgements and estimates

In determining and applying accounting policies, judgement is often required in respect of items where the choice of specific policy, accounting estimate or assumption to be followed could materially affect the reported results or net asset position of the company. It may later be determined that a different choice would have been more appropriate. Management considers that certain accounting estimates and assumptions relating to revenue, taxation, intangible fixed assets, tangible fixed assets and provisions are its critical accounting policies.

Turnover

Turnover represents net invoiced sales of services, excluding value added tax, recognised as follows: Initial licence fee income is recognised in full on receipt of payments, receipt of a signed licence and the issue of authorisation codes to activate the software. Software support contracts invoiced in advance for fixed periods are taken to income in monthly instalments over the relevant contract period. Training income is recognised when the training is carried out.

Intangible assets

Intangible assets are initially measured at cost. After initial recognition, intangible assets are measured at cost less any accumulated amortisation and any accumulated impairment losses.

Development costs are being amortised evenly over their estimated useful life of five years.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Fixtures and fittings	- 15% on reducing balance
Computer equipment	- 50% on reducing balance

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the statement of financial position date.

3. ACCOUNTING POLICIES - continued

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the statement of financial position date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to profit or loss in the period to which they relate.
