Direct Group Yorkshire Ltd

Notes to the abbreviated financial statements for the year ended 31 May 2013

1. Accounting policies

1.1. Accounting convention

The accounts are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

1.2. Turnover

Turnover represents the value of services provided under contract to the extent that there is a right to consideration and is recorded at the value of the consideration due. Where a contract has only been partially completed at the balance sheet date, turnover represents the value of the service to date, based on a proportion to the total expected consideration on completion.

1.3. Tangible fixed assets and depreciation

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Leasehold properties	-	Straight line over the life of the lease
Plant and machinery	-	15% per annum of net book value
Motor vehicles	-	25% per annum of net book value

1.4. Leasing and hire purchase commitments

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce constant periodic rates of charge on the net obligations outstanding in each period.

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

1.5. Investments

Fixed asset investments are stated at cost less provision for permanent diminution in value.

1.6. Stock

Stock is valued at the lower of cost and net realisable value. Cost is determined on a first in first out basis. Net realisable value represents estimated selling price less costs to complete and sell. Provision is made for slow moving, obsolete or damaged stock where the net realisable value is less than cost.

1.7. Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax, with the following exceptions:

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.
