NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 MARCH 2008

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2007).

1.2 Turnover

Turnover represents amounts receivable for goods and services net of VAT and trade discounts.

1.3 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Plant and machinery	20% - 33.3% straight line
Office equipment	25% straight line
Motor vehicles	25% straight line

1.4 Stock

Stock is valued at the lower of cost and net realisable value.

1.5 Pensions

The company contributes to individual personal pension plans. Contributions payable are charged to the profit and loss account in the year they are payable.

1.6 Deferred taxation

Full provision is made for deferred tax arising from timing differences existing at the balance sheet date where there exists an obligation to pay more, or right to pay less tax, with the following exceptions:

- Provision is made for tax on gains arising from revaluation of fixed assets, or gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold.

- Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be sufficient taxable profits from which the future reversal of the underlying timing difference can be deducted.

Deferred tax balances are not discounted and are calculated at the tax rates that are expected to apply in the period in which timing differences are expected to reverse.
