The notes on pages 7 to 13 form part of these financial statements

Notes to the Financial Statements

For the year ended 31 December 2012

1. Accounting Policies

1.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

The accounting policies remain unchanged from the prior year and are set out below

1.2 Cash flow

The financial statements do not include a Cash flow statement because the company, as a small reporting entity, is exempt from the requirement to prepare such a statement under the Financial Reporting Standard for Smaller Entities (effective April 2008)

1.3 Turnover

Turnover comprises revenue recognised by the company in respect of goods and services supplied during the year, exclusive of Value Added Tax and trade discounts

This relates to the fees for the processing of waste for the principal customer, which are recognised in relation to the tonnage of waste processed

The company is party to certain contracts where it acts as an agent for other subsidiary undertakings of Agrivert Group Limited. In these circumstances the company does not recognise the amounts billed as turnover in the financial statements, only recognising any margin which it generates on those contracts. The amount billed by the company for the year ended 31 December 2012 on contracts where it acts as agent was £1,097,129 (2011 £1,018,043)

1.4 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives as set out below. The company has accounted for the single assets of an in-vessel composting facility under the overhauls model, whereby certain parts requiring regular replacement are depreciated over a shorter period than the remainder of the facility

Plant & machinery	-	5 - 20 years straight line
-------------------	---	----------------------------

1.5 Operating leases

Rentals under operating leases are charged to the Profit and loss account on a straight line basis over the lease term

Notes to the Financial Statements

For the year ended 31 December 2012

1. Accounting Policies (continued)

1.6 Deferred taxation

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse

1.7 Government grants

Deferred government grants are released to the profit and loss account over the period of the contract based on agreed levels of waste processing. The grants are recognised in full when the total contractually agreed tonnage has been processed

1.8 Financial instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities

Where the contractual obligations of financial instruments (including share capital) are equivalent to a similar debt instrument, those financial instruments are classed as financial liabilities. Financial liabilities are presented as such in the balance sheet. Finance costs and gains or losses relating to financial liabilities are included in the profit and loss account. Finance costs are calculated so as to produce a constant rate of return on the outstanding liability

Where the contractual terms of share capital do not have any terms meeting the definition of a financial liability then this is classed as an equity instrument. Dividends and distributions relating to equity instruments are debited direct to equity

2. Turnover

The turnover and profit before tax are attributable to the one principal activity of the company
