Notes

(forming part of the financial statements)

1 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements

Basis of preparation

The financial statements have been prepared in accordance with applicable accounting standards, under the historical cost accounting rules and within the requirements of the Companies Act 2006

Going concern

In presenting the financial statements on a going concern basis, the directors have considered the company's business activities together with factors likely to affect future performance and financial position These include cash flows, and the risks and uncertainties relating to the company's business activities

On 29 April 2012 the company's ultimate parent (FSHC (Guernsey) Holdings Limited) entered into a conditional sale and purchase agreement ("SPA") for the sale of the entire issued share capital of FSHC (Jersey) Holdings Limited and that company's subsidiary undertakings (together, the "FSHC Jersey Group"), to Elli Capital Limited The sale was completed on 12 July 2012

As part of the acquisition by Elli Capital Limited, all debt-related liabilities owed by FSHC Jersey Group were repaid in full on 12 July 2012 Elli Capital Limited and its subsidiary undertakings (together, the "Elli Group") entered into a £525 million debt facility as part of the acquisition Of this, £350 million pays interest at 8 75% and is due for repayment in 2019 and £175 million pays interest at 12 25% and is due for repayment in 2020 This provides the group with a more stable and secure financial structure

At 31 December 2011 the company is dependent on funding provided by group companies For this reason the funding position of the company is dependent on that of the Elli Group as a whole

The group has carefully considered its cash flows and financial covenants for at least twelve months from the date of signing the financial statements These have been appraised in light of the uncertainty in the current economic climate and, as such, conservative assumptions for working capital performance have been used to determine the level of financial resources available to the company and the Elli Group

The Elli Group's forecasts and projections, sensitised to take into account all reasonably foreseeable changes in trading performance, show that the Elli Group has sufficient funding and covenant headroom within its current financing arrangements

After making appropriate enquiries, the directors have a reasonable expectation that the company and the Elli Group have adequate resources to continue in operational existence for the foreseeable future Accordingly, they continue to adopt the going concern basis in the preparation of these financial statements

Related party transactions

The directors have taken advantage of the exemption in FRS 8, Paragraph 3(c) and as the company is a wholly owned subsidiary of FSHC (Jersey) Holdings Limited have not disclosed related party transactions with parent and fellow subsidiary undertakings

Cash flow statement

The company is exempt from the requirement of FRS 1 to prepare a cash flow statement as at 31 December 2011 it was a wholly owned subsidiary undertaking of FSHC (Jersey) Holdings Limited, and its cash flows are included within the consolidated cash flow statement of that company

Tangible fixed assets and depreciation

Depreciation is provided to write off the cost less the estimated residual value of tangible fixed assets by equal instalments over their estimated useful economic lives as follows

Equipment and fixtures	- 20% per annum

Notes *(continued)*

1 Accounting policies *(continued)*

Guarantees

Where the company enters into financial guarantee contracts to guarantee the indebtedness of other related parties which are subsidiaries of its ultimate parent, the company considers these to be insurance arrangements and accounts for them as such In this respect, the company treats the guarantee contract as a contingent liability until such time as it becomes probable that the company will be required to make payment under the guarantee

Leases

Operating lease rentals are charged to the profit and loss account on a systematic and rational basis over the period of the lease

Taxation

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date

Deferred tax is provided in full on timing differences which result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the financial statements Deferred tax is not provided on timing differences arising from the revaluation of tangible fixed assets where there is no commitment to sell the asset Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered Deferred tax assets and liabilities are not discounted

Goodwill

Purchased goodwill (representing the excess of the fair value of the consideration given over the fair value of the separable net assets acquired) is capitalised Positive goodwill is amortised by equal annual instalments over its estimated useful economic life The directors' estimate of the useful economic life is considered on an individual basis Goodwill capitalised to date is being amortised over 20 years
