Notes to the Abbreviated Accounts for the period ended 31 December 2014

1 **Accounting Policies**

Basis of measurement and preparation of accounts
The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Turnover policy
The turnover shown in the profit and loss account represents amounts invoiced during the year, exclusive of Value Added Tax.

In respect of long-term contracts and contracts for on-going services, turnover represents the value of work done in the year, including estimates of amounts not invoiced. Turnover in respect of long-term contracts and contracts for on-going services is recognised by reference to the stage of completion.

Tangible assets depreciation policy
Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Fixtures and fittings - 33.3% on a straight line basis

Other accounting policies
Operating lease agreements

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the period of the lease.

Pension costs

The company operates a defined contribution pension scheme for employees. The assets of the scheme are held separately from those of the company. The annual contributions payable are charged to the profit and loss account.

Deferred taxation

The company's basis for accounting for deferred tax is in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008). Deferred tax is recognised at the anticipated rates in respect of timing differences that have originated but not reversed by the balance sheet date. Deferred tax assets and liabilities are not discounted.
Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual

arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.
