NOTES TO THE ABBREVIATED ACCOUNTS

YEAR ENDED 29 SEPTEMBER 2015

1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

The turnover shown in the profit and loss account represents amounts receivable during the year, exclusive of Value Added Tax.

Turnover relates to the principal activity of the company being the running of a caravan and leisure park.

Goodwill

The Directors carried out an impairment review of goodwill and concluded that the carrying value was reasonable provided operations continue. Amortisation is not required.

Amortisation

Amortisation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Goodwill	-	10 Years
----------	---	----------

Fixed assets

All fixed assets are initially recorded at cost.

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Plant & Machinery	-	25% reducing balance
Fixtures & Fittings	-	25% reducing balance
Motor Vehicles	-	25% reducing balance
Equipment	-	25% reducing balance

Freehold Property - 2% of cost less residual value

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exceptions:

NOTES TO THE ABBREVIATED ACCOUNTS

YEAR ENDED 29 SEPTEMBER 2015

1. ACCOUNTING POLICIES *(continued)*

Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold.

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Employee benefit trusts

The company has purchased a trust for the benefit of employees and certain of their dependants. Monies held in this trust are held by independent trustees and managed at their discretion.

Where the company retains future economic benefit from, and has de facto control of the assets and liabilities of the trust, they are accounted for as assets and liabilities of the company until the earlier of the date that an allocation of trust funds to employees in respect of past services is declared and the date that assets of the trust vest in identified individuals.

Where monies held in a trust are determined by the company on the basis of employees' past services to the business and the company can obtain no future economic benefit from those monies, such monies, whether in the trust or accrued for by the company are charged to the profit and loss account in the period to which they relate.
