1 Accounting policies

Basis of preparation
The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Turnover
Turnover represents amounts chargeable, net of value added tax, in respect of the sale of goods and services to customers

Depreciation
Depreciation is provided on tangible fixed assets so as to write off the cost or valuation, less any estimated residual value, over their expected useful economic life as follows

Asset class	Depreciation method and rate
Property	10% straight line
Plant and machinery	25% straight line
Fixtures and fittings	25% straight line
Motor vehicles	25% straight line

Stock
Stock is valued at the lower of cost and net realisable value, after due regard for obsolete and slow moving stocks Net realisable value is based on selling price less anticipated costs to completion and selling costs.

Hire purchase and leasing
Rentals payable under operating leases are charged in the profit and loss account on a straight line basis over the lease term

Financial instruments
Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities Where shares are issued, any component that creates a financial liability of the company is presented as a liability in the balance sheet The corresponding dividends relating to the liability component are charged as interest expense in the profit and loss account
