Notes to the Abbreviated Accounts for the period ended 31 August 2014**1 Accounting Policies****Basis of measurement and preparation of accounts**

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Tangible assets depreciation policy

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Plant and machinery - 33% straight line

Other accounting policies**Stock**

Stock is valued at the lower of cost and net realisable value.

Going concern

At the balance sheet date, the company's liabilities exceeded its assets. The company has received assurance from the director and shareholder that he will continue to give financial support to the company for twelve months from the date of signing these financial statements.

On this basis, the director considers it appropriate to prepare the accounts on a going concern basis.

However, should the financial support mentioned above not be forthcoming, the going concern basis used in preparing the company's accounts may be invalid and adjustments would have to be made to reduce the value of assets to their realisable amount and to provide for any further liabilities which might arise. The accounts do not include any adjustment to the company's assets or liabilities that might be necessary should this basis not continue to be appropriate.
