**Notes to the abbreviated accounts**

For the year ending 31 March 2012

**1 Accounting policies**

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standards for Small Entities (effective June 2002)

**2 Investments (fixed assets)**

Investment properties are those properties held for their investment potential. Investments are valued at their open market value at each year in accordance with Statement of Standard Accounting Practice number 19. The surplus or deficit on revaluation is transferred to the revaluation reserve unless deficit below original below original cost is expected to be permanent, in which case it is recognised in the profit and loss for the year. Although the Companies Act would normally require the systematic annual depreciation of fixed assets, the directors believe that the policy of not providing depreciation is necessary in order for the accounts to give a true and fair view, since the current value of investment properties, and changes to the current value, are of prime importance.
