For the year ended 31 December 2011 the company was entitled to exemption from audit under Section 477 of the Companies Act 2006 relating to small companies and its members have not required the company to obtain an audit of its financial statements for the year in question in accordance with Section 476

The director acknowledges his responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts

These abbreviated financial statements have been prepared in accordance with the provisions applicable to companies subject to the small companies regime

The abbreviated financial statements on pages 1 to 3 were approved by the board of directors and authorised for issue on 25/12/2012 and are signed on its behalf by

Adel Alabdulkarim
Director

Azimuth Post Production Limited

UNAUDITED ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements are prepared under the historical cost convention

GOING CONCERN

The company meets its day to day working capital requirements through a loan from Adel Alabdulkarim a director of the company. The director gives no guarantee that the loan is not expected to be repaid within the next financial year, however, continued support is expected and therefore, the accounts have been prepared on a going concern basis

TURNOVER

Turnover represents the invoiced value, net of Value Added Tax, of goods sold and services provided to customers

TANGIBLE FIXED ASSETS AND DEPRECIATION

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows

Plant and machinery	33 3% straight line
Fixtures, fittings & equipment	33 3% straight line/25% reducing balance

LEASING

Rentals payable under operating leases are charged against income on a straight line basis over the lease term

STOCK

Stocks are valued at the lower of cost and net realisable value. Cost of finished goods includes overheads appropriate to the stage of manufacture. Net realisable value is based upon estimated selling price less further costs expected to be incurred to completion and disposal. Provision is made for obsolete and slow-moving items

DEFERRED TAXATION

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis

FOREIGN CURRENCY TRANSLATION

Assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the balance sheet date. Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. All differences are taken to the profit and loss account
