Notes to the Abbreviated Accounts
for the year ended 31 March 2011

1 Accounting policies

Basis of preparation
The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Turnover
Turnover represents the value, net of value added tax and discounts, of goods provided to customers and work carried out in respect of services provided to customers

Depreciation
Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives

Equipment	25% straight line

Stocks
Stock is valued at the lower of cost and net realisable value

Deferred taxation
Full provision is made for deferred taxation resulting from timing differences between the recognition of gains and losses in the accounts and their recognition for tax purposes Deferred taxation is calculated on an un-discounted basis at the tax rates which are expected to apply in the periods when the timing differences will reverse No recognition though has been made for unrelieved tax losses at the year end as the director does not consider it appropriate to do so

Foreign currencies
Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the balance sheet date All differences are taken to the profit and loss account

Going Concern
The company has a loan from the director of £137,201 (2010 - £126,594), a loan from the director's husband of £161,500 (2010 - £102,500), and a third party loan of £105,000 (2010 - £105,000) which are repayable on demand The company would be unable to repay these liabilities in the short-term and is therefore dependent upon their continued availability In the directors' opinion, the company has adequate financial support to enable it to continue trading for the foreseeable future
