1 ACCOUNTING POLICIES

Accounting convention
The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Turnover
Turnover represents net invoiced sales of services, excluding value added tax

Turnover represents rent receivable

Investment property
Investment properties are stated at open market value The valuations are carried out annually by the company's director in accordance with the Financial Reporting Standards for Smaller Entities (effective January 2007) Surpluses or deficits arising on the revaluations are dealt with through the revaluation reserve

In accordance with FRSSE 2007 no depreciation or amortisation is provided in respect of the investment properties This treatment is a departure from the requirement of the Companies Act 2006 that depreciation is charged to write off the value of the investment properties, less any residual value, systematically over the asset's useful economic life However these properties are not held for consumption but for investment and the director considers that systematic annual depreciation would be inappropriate The accounting policy adopted is therefore necessary for the accounts to give a true and fair view

Deferred tax
Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date
