**NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 30 JUNE 2011**

1 ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Turnover

Turnover represents rent receivable

Investment property

Investment properties are stated at open market value. The valuations are carried out annually by the company's director in accordance with Financial Reporting Standard for Smaller Entities (effective April 2008). Surpluses or deficits arising on revaluation are dealt with through the revaluation reserves.

In accordance with FRSSE 2008 no depreciation or amortisation is provided in respect of the investment properties. This treatment is a departure from the requirements of the Companies Act 2006 that depreciation is charged to write off the value of the investment properties, less any residual value, systematically over the assets' useful economic life. However these properties are not held for consumption but for investment and the director considers that systematic annual depreciation would be inappropriate. The accounting policy adopted is therefore necessary for the accounts to give a true and fair view.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Going Concern

The company is reliant on the support of the director to continue trading. There are no indications that this support will not continue and as such the accounts have been prepared on a going concern basis.
