Directors' report

The Directors present their directors' report and financial statements for the year ended 31 March 2021.

Principal activities

The principal activity of the Company is the operation of a care home together with the provision of specialist services for the elderly.

Business review

Review of financial performance and position at year end

The Directors are pleased with the performance in the year, which is in line with expectations. Turnover for the year was £5.0m (2020: £5.1m). The Company recorded an operating loss of £0.1m (2020: loss of £0.1m).

Objectives

- To establish and integrate care homes within the Avery Healthcare group. They will all be of the highest quality from both an environmental and care delivery perspective;
- To recruit and provide training to staff of a similarly high calibre;
- Continue to evolve and use our quality assurance system to assist in this aim of providing high quality care to the vulnerable elderly;
- Continuous expenditure on the environment and fabric of the buildings. Continued recognition of the importance of this to the residents of our facilities;
- To achieve above industry average outcomes from reviews and inspections undertaken by sector regulators; and
- To achieve a financial performance in line with budget and in excess of sector norms.

How we will achieve this

- Providing a career path for all our staff;
- Providing the training and support to teach staff the art of caring;
- Complying with all regulatory requirements; and
- Providing better care than our competitors.

How we will assess our performance

- Close supervision of home managers by high calibre and experienced area managers;
- Achievable care home budgets; and
- Weekly reporting to care home managers on key performance indicators.
- Continued assessment of the long term care sector and the potential changes on the horizon;
- Review of government policy and the impact on the care sector of proposed changes in either social economic terms or direct government focus. Respond to potential changes in the general political view of the privately provided care sector;
- Review of the housing market and pensions, enabling an assessment of service user's ability to pay for care services; and
- Managing the financial risk resulting from fluctuations in interest rates through appropriate hedging arrangements.

Directors' report *(continued)*

Business review *(continued)*

Key performance indicators

The Company monitors the performance of the business using the following:

- Earnings before interest, depreciation, amortisation and tax; and
- Operating cash generation.

Other indicators are occupancy rates and the proportion of private pay clients who are attracted to homes of a high standard – the Company is one of the few which has 100% single rooms with en suite facilities.

The Company also attracts a high calibre of staff due to its training and support programmes and achieves well in excess of the 50% minimum for staff achieving NVQ level 2 or above.

Impact of COVID-19

As at the date of the signing of these financial statements, the UK and world are recovering from the significant adverse impact of the COVID-19 pandemic. Following the successful nationwide rollout of COVID-19 vaccines and boosters, the group has experienced a stabilisation in occupancy levels as well as increased enquiries and net admissions. The directors, management team and staff have been, and remain, committed to providing safe working environments in our care homes, retirement facilities and support offices for all our residents and staff, and we have worked tirelessly to reassure and care for our residents. We are confident that our strong team are up to the challenges posed by this pandemic and the subsequent recovery.

The levels of vaccination of residents within the Group is almost 100%, which is a significant step forward for the sector to return to more normal operating levels. There is no doubt that adverse publicity directed at the care home sector during the pandemic has had a negative impact, however with more positive reporting, the widespread vaccination programme and the resultant re-opening of care homes to visiting by relatives, provides a positive outlook for both the Group and the care sector.

Proposed dividend

The Directors do not recommend the payment of a dividend (2020: *£nil*).

Directors

The Directors who held office during the year were as follows:

I Matthews (resigned 9 March 2022)
MF Proctor
JMB Strowbridge

Political contributions

The Company made no political donations or incurred any political expenditure during the current or preceding financial year.

Future developments and post balance sheet events

On 9 March 2022, Veilchenblau Estates Limited acquired 83% of the issued share capital of Avery Healthcare Holdings Limited.

Directors' report *(continued)*

Audit

The Company has taken advantage of the exemption from audit under Section 479A of the Companies Act 2006 as a result of a guarantee provided by its intermediate parent company, Avery Healthcare Group Limited.

This report has been prepared in accordance with the special provisions relating to small companies within Part 15 of the Companies Act 2006.

By order of the board

Statement of directors' responsibilities in respect of the Directors' report and the financial statements

The Directors are responsible for preparing the Directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial period. Under that law they have elected to prepare the financial statements in accordance with UK Accounting Standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland*.

Under Company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- assess the company's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern; and
- use the going concern basis of accounting unless they intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are responsible for such internal controls as they determine necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

Audit exemption statement

For the year ending 31 March 2021 the Company was entitled to exemption from audit under section 479A of the Companies Act 2006 relating to subsidiary companies.

Directors' responsibilities:

- The members have not required the Company to obtain an audit of its accounts for the year in question in accordance with Section 476.
- The Directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

These financial statements were approved by the board of directors on 26 MAY 2022 and were signed on its behalf by:

MF Proctor
Director

Notes

(forming part of the financial statements)

1 Accounting policies

Avery Homes Cliftonville Limited (the “Company”) is a company limited by shares and incorporated and domiciled in the UK.

These financial statements were prepared in accordance with Financial Reporting Standard 102 *The Financial Reporting Standard* applicable in the UK and Republic of Ireland (“FRS 102”). The presentation currency of these financial statements is sterling.

At the year ended 31 March 2021 the Company’s ultimate parent undertaking was Xanadu Investments Limited and the smallest group in which these accounts were consolidated was headed by Avery Healthcare Group Limited (the intermediate parent company). The consolidated financial statements of Xanadu Investments Limited and Avery Healthcare Group Limited are available to the public and may be obtained from Companies House. In these financial statements, the Company is considered to be a qualifying entity (for the purposes of this FRS) and has applied the exemptions available under FRS 102 in respect of the following disclosures:

- Cash Flow Statement and related notes; and
- Key management personnel compensation.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements. In the opinion of the Directors, no critical judgements or estimates have been made in the application of accounting policies which have a significant effect on the financial statements.

1.1 Measurement convention

The financial statements are prepared on the historical cost basis.

1.2 Going concern

The intermediate parent company, Avery Healthcare Group Limited, has agreed to continue to provide the Company with the necessary financial support and working capital for at least one year from the date of the approval of these financial statements to allow the Company to meet its liabilities as they fall due. The Company is also subject to cross guaranteed property leasing and loan arrangements with other group undertakings. Detailed information regarding the financial position of the Group headed by Avery Healthcare Group Limited, its cash flows, liquidity position and borrowing facilities are included in the financial statements of Avery Healthcare Group Limited, which can be obtained from Companies House. The following analysis considers the position of the Group as a whole;

The Group has recorded a loss before taxation for the year of £8.8m. Other than exceptional costs of £6.7m, this result is in line with expectations and the Group continues to perform in line with the original long term business plan put together at the time the Group was formed.

At the year end the Group had net current liabilities of £42.5m, including £15.7m cash.

The Group meets its day-to-day working capital requirements through operating cash flows and debt financing. The Group’s forecasts and projections, taking account of reasonable possible changes in trading performance, show that the Group is expected to have a sufficient level of financial resources available through current and committed facilities.

The intermediate parent company has provided a guarantee to the Company in respect of the Company’s liabilities as at 31 March 2021.

After making enquiries and considering the above issues in detail, and whilst accepting that there are certain levels of risk associated with the above issues, the Directors consider and have concluded that the Company will have adequate resources to continue in operational existence for the foreseeable future. For these reasons they continue to adopt a going concern basis in the preparation of the financial statements.

Notes (continued)

1 Accounting policies (continued)

1.3 Foreign currency

Transactions in foreign currencies are translated to the Company's functional currency at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated to the functional currency at the foreign exchange rate ruling at that date.

1.4 Classification of financial instruments issued by the Company

In accordance with FRS 102.22, financial instruments issued by the Company are treated as equity only to the extent that they meet the following two conditions:

- (a) they include no contractual obligations upon the Company to deliver cash or other financial assets or to exchange financial assets or financial liabilities with another party under conditions that are potentially unfavourable to the Company; and
- (b) where the instrument will or may be settled in the Company's own equity instruments, it is either a non-derivative that includes no obligation to deliver a variable number of the Company's own equity instruments or is a derivative that will be settled by the Company's exchanging a fixed amount of cash or other financial assets for a fixed number of its own equity instruments.

To the extent that this definition is not met, the proceeds of issue are classified as a financial liability. Where the instrument so classified takes the legal form of the Company's own shares, the amounts presented in these financial statements for called up share capital and share premium account exclude amounts in relation to those shares.

1.5 Basic financial instruments

Trade and other debtors / creditors

Trade and other debtors are recognised initially at transaction price less attributable transaction costs. Trade and other creditors are recognised initially at transaction price plus attributable transaction costs. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses in the case of trade debtors.

Interest-bearing borrowings classified as basic financial instruments

Interest-bearing borrowings are recognised initially at the present value of future payments discounted at a market rate of interest. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method, less any impairment losses.

1.6 Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation and accumulated impairment losses. Tangible fixed assets include investment property whose fair value cannot be measured reliably without undue cost or effort.

Where parts of an item of tangible fixed assets have different useful lives, they are accounted for as separate items of tangible fixed assets, for example land is treated separately from buildings.

Leases in which the Company assumes substantially all the risks and rewards of ownership of the leased asset are classified as finance leases. All other leases are classified as operating leases. Leased assets acquired by way of finance lease are stated on initial recognition at an amount equal to the lower of their fair value and the present value of the minimum lease payments at inception of the lease, including any incremental costs directly attributable to negotiating and arranging the lease. At initial recognition a finance lease liability is recognised equal to the fair value of the leased asset or, if lower, the present value of the minimum lease payments. The present value of the minimum lease payments is calculated using the interest rate implicit in the lease. Lease payments are accounted for as described at 1.10 below.

The Company assesses at each reporting date whether tangible fixed assets (including those leased under a finance lease) are impaired.

Notes (continued)

1 Accounting policies (continued)

1.6 Tangible fixed assets (continued)

Depreciation is charged to the profit and loss account on a straight-line basis over the estimated useful lives of each part of an item of tangible fixed assets. Leased assets are depreciated over the shorter of the lease term and their useful lives. Land is not depreciated. The estimated useful lives are as follows:

- buildings 50 years
- computer equipment 4 years
- fixtures and fittings 5 years

Depreciation methods, useful lives and residual values are reviewed if there is an indication of a significant change since the last annual reporting date in the pattern by which the Company expects to consume an asset's future economic benefits.

1.7 Stocks

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell. Cost is based on the first-in first-out principle and includes expenditure incurred in acquiring the stocks, production or conversion costs and other costs in bringing them to their existing location and condition. In the case of manufactured stocks and work in progress, cost includes an appropriate share of overheads based on normal operating capacity.

1.8 Impairment excluding stock and deferred tax assets

Financial assets (including trade and other debtors)

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. For financial instruments measured at cost less impairment an impairment is calculated as the difference between its carrying amount and the best estimate of the amount that the Company would receive for the asset if it were to be sold at the reporting date. Interest on the impaired asset continues to be recognised through the unwinding of the discount. Impairment losses are recognised in profit or loss. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

Non-financial assets

The carrying amounts of the entity's non-financial assets, other than stocks and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit"). The goodwill acquired in a business combination, for the purpose of impairment testing is allocated to cash-generating units, or ("CGUs") that are expected to benefit from the synergies of the combination. For the purpose of goodwill impairment testing, if goodwill cannot be allocated to individual CGUs or groups of CGUs on a non-arbitrary basis, the impairment of goodwill is determined using the recoverable amount of the acquired entity in its entirety, or if it has been integrated then the entire group of entities into which it has been integrated.

An impairment loss is recognised if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the units, and then to reduce the carrying amounts of the other assets in the unit (group of units) on a pro rata basis.

An impairment loss is reversed if and only if the reasons for the impairment have ceased to apply.

Notes (continued)

1 Accounting policies (continued)

1.8 Impairment excluding stock and deferred tax assets (continued)

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

1.9 Turnover

Turnover represents fee income relating to the provision of care services, net of value added tax, if applicable and the sale of properties acquired or developed by the Company where a forward sales agreement is in place. Fee income comprises care home fees which are recognised when the delivery of the service is completed. Fees invoiced in advance are included as deferred income until the service is completed.

1.10 Expenses

Operating lease

Payments (excluding costs for services and insurance) made under operating leases are recognised in the profit and loss account on a straight-line basis over the term of the lease unless the payments to the lessor are structured to increase in line with expected general inflation; in which case the payments related to the structured increases are recognised as incurred. Lease incentives received are recognised in profit and loss over the term of the lease as an integral part of the total lease expense.

Interest receivable and Interest payable

Interest payable and similar charges include interest payable, finance charges on shares classified as liabilities and finance leases are recognised in profit or loss using the effective interest method, unwinding of the discount on provisions, and net foreign exchange losses that are recognised in the profit and loss account (see foreign currency accounting policy). Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that takes a substantial time to be prepared for use, are capitalised as part of the cost of that asset/are expensed as incurred.

Other interest receivable and similar income include interest receivable on funds invested and net foreign exchange gains.

Interest income and interest payable are recognised in profit or loss as they accrue, using the effective interest method. Dividend income is recognised in the profit and loss account on the date the Company's right to receive payments is established. Foreign currency gains and losses are reported on a net basis.

1.11 Taxation

Tax on the profit or loss for the year comprises current and deferred tax. Tax is recognised in the profit and loss account except to the extent that it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided on timing differences which arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements.

Deferred tax is provided in respect of the additional tax that will be paid or avoided on differences between the amount at which an asset (other than goodwill) or liability is recognised in a business combination and the corresponding amount that can be deducted or assessed for tax. Goodwill is adjusted by the amount of such deferred tax.

Deferred tax is measured at the tax rate that is expected to apply to the reversal of the related difference, using tax rates enacted or substantively enacted at the balance sheet date.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Notes (continued)

2 Turnover

Turnover is derived entirely in the UK from the principal activities of the Company.

During the year government grants of £59k (2020: £0k) relating to the Coronavirus Job Retention Scheme were recognised in other income within turnover.

3 Expenses

Included in profit/loss are the following:

	2021 £	2020 £
Rental payable under property operating leases	1,747,118	1,737,343
Depreciation of fixed assets	73,034	83,831
	<u>1,820,152</u>	<u>1,821,174</u>

4 Staff numbers and costs

The average number of persons employed by the Company (excluding Directors) during the year, analysed by category, was as follows:

	Number of employees 2021	2020
Management and administration staff	6	6
Nursing, care and domestic staff	91	99
	<u>97</u>	<u>105</u>

The aggregate payroll costs of these persons were as follows:

	2021 £	2020 £
Wages and salaries	2,070,461	2,088,030
Social security costs	152,227	153,080
Pension costs	34,482	34,579
	<u>2,257,170</u>	<u>2,275,689</u>

5 Directors' remuneration

No remuneration was paid to the Directors in respect of their services to the Company during the current or preceding financial year.

6 Exceptional administrative expenses

	2021 £	2020 £
Future operating lease rental increases charged in the year	174,094	210,134
	<u>174,094</u>	<u>210,134</u>

Future operating lease rental increases charged in the year represents the difference between operating lease cash payments and the profit and loss account charge arising on guaranteed annual rental increases which are spread over the lease term.

Notes (continued)

Effect of tax rate changes	-	(2,111)
Total tax credit included in profit or loss	(19,023)	(6,962)

Factors that may affect future current and total tax charges

In the March 2021 Budget the UK Government announced that legislation will be introduced in Finance Bill 2021 to increase the main rate of UK corporation tax from 19% to 25%, effective 1 April 2023. As the changes had not been substantively enacted at the balance sheet date, the deferred tax balances as at 31 March 2021 continue to be measured at a rate of 19%.
