1. STATUTORY INFORMATION

Alan Thompson Limited is a private company, limited by shares , registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements
These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets.

Turnover
Turnover represents gross rents receivable for the year. Turnover is recognised when rent become due under the lease agreement.

Tangible fixed assets
Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Fixtures and fittings	- 10% on cost
Computer equipment	- 20% on cost

Investment property
The company's investment properties are held for long term investment and are included in the balance sheet at their open market values. No depreciation is provided in respect of Freehold and long leasehold investment properties. An investment property on short leasehold where the remaining life is less than 20 years is mortised over the life of the lease.

This policy represents a departure from statutory accounting principles, which require depreciation to be provided on all fixed assets. The directors consider that this policy is necessary in order that the accounts may give a true and fair view because current values and changes in current values are of prime importance rather than the calculation of systematic annual depreciation. Depreciation is only one of many factors reflected in the valuation and the amount which might otherwise have been shown, cannot be separately identified or quantified.

All Investment properties are revalued every year. The surplus(es) or deficit(s) on revaluation of such properties are transferred to revaluation reserve, apart from when the revaluation is below the original cost and in the opinion of the directors the diminution in value is of a permanent nature which is charged to the profit and loss account. On the disposal of a revalued fixed asset, any related balances in the revaluation reserve are transferred to the profit and loss account as a movement in reserves.

Taxation
Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the statement of financial position date.

2. **ACCOUNTING POLICIES - continued**

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the statement of financial position date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.
