Acacia House
Blackbrook Park Avenue
Taunton
Somerset
TA1 2PX

2 Accounting policies

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of compliance

These financial statements have been prepared in accordance with Financial Reporting Standard 102 - 'The Financial Reporting Standard applicable in the UK and Republic of Ireland', including Section 1A, and the Companies Act 2006. There are no material departures from FRS 102.

Basis of preparation

These financial statements have been prepared using the historical cost convention.

Going concern

The financial statements have been prepared on a going concern basis.

In making their going concern assessment, the directors have given consideration to the on-going impact of the global coronavirus pandemic on the operations and financial performance and position of both the company and the wider group, as well as on the residents / service users and their families. The directors have also given consideration to the on-going challenges of funding and rising costs in the care sector, restrictions on staff availability, and the impact of high inflation.

While recognising that there can be no certainty, having considered these factors and made all necessary enquiries, the directors are satisfied that the company will continue to meet its liabilities as they fall due, and are satisfied that the company will continue to operate with sufficient cash headroom for a period of at least 12 months (from the date of approval of these financial statements).

Acacia Facilities Management Limited

Notes to the Financial Statements

Year Ended 31 March 2022

Key judgements and sources of estimation uncertainty

In the application of the company's accounting policies management is required to make judgements, estimates and assumptions about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The key judgement that has a significant impact on the financial statements is in respect of going concern, as described above.

In the opinion of the directors, there are no key sources of estimation uncertainty as at 31 March 2022.

Revenue recognition

Turnover represents the fair value of consideration receivable, excluding Value Added Tax, in the ordinary course of business for goods and services provided.

Rental income is recognised in the period to which the rental relates. Service charges are recognised in the period to which the rental relates.

Tax

Tax is recognised in profit or loss, except in respect of a change attributable to an item of income or expense recognised as other comprehensive income when the tax is also recognised directly in other comprehensive income.

The current corporation tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates taxable income.

Financial instruments

Financial instruments are recognised when the company becomes party to the contractual provisions of the instrument and derecognised when in the case of assets, the contractual rights to cash flows from the assets expire or substantially all the risks and rewards of ownership are transferred to another party, or in the case of liabilities, when the company's obligations are discharged, expire or are cancelled.

The company holds the following financial instruments, all of which meet the conditions to be classified as basic instruments:

Short term trade, other and intra group balances:

Such instruments are initially measured at transaction price, including transaction costs, and are subsequently carried at the undiscounted amount of the cash or other consideration expected to be paid or received, after taking account of impairment adjustments.
