Notes to the abbreviated accounts

For the year ending 31 August 2010

1 Accounting policies

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net invoiced sales of goods, excluding value added tax.

1 Basis of preparing the financial statements

The accounts are prepared on a going concern basis which assumes that the director will continue to support the company. If this support was not to continue then this basis may not be appropriate, as at 31 August 2010 the company has net current liabilities of £8,908. Should the company then not be able to continue trading, adjustments to the value of assets would be needed to provide for any further liabilities which might arise and to reclassify fixed assets as current assets.
