REPORT OF THE DIRECTORS

The Directors have pleasure in presenting their Report together with the Financial Statements for the year ended 31 December 2016.

Results

The results for the year are set out on pages 9 and 10 of the Financial Statements.

Directors

The Directors of the Company in office during the year were as follows:

T A Booth
H N A Colthurst
A K Quilter
K E Randall

STATEMENT OF DIRECTORS' RESPONSIBILITIES

The Directors are responsible for preparing the Strategic Report and the Report of the Directors and Financial Statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare Financial Statements for each financial year. Under that law the Directors have elected to prepare the Financial Statements in accordance with United Kingdom Generally accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the Directors must not approve the Financial Statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these Financial Statements the Directors are required to:

- Select suitable Accounting Policies and then apply them consistently;
- Make judgements and accounting estimates that are reasonable and prudent;
- State whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the Financial Statements; and
- Prepare the Financial Statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the Financial Statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

REPORT OF THE DIRECTORS (CONTINUED)

Disclosure of Information to the Auditors

In the case of each of the persons who are Directors at the time this report is approved, the following applies:

(a) So far as the Directors are aware, there is no relevant audit information of which the Company's auditors are unaware, and

(b) They have taken all the steps that they ought to have taken as a Director in order to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

Auditors

PKF Littlejohn LLP has signified its willingness to continue in office as auditor.

By Order of the Board

B Murphy
For and on behalf of R&Q Central Services Limited
Company Secretary

STRATEGIC REPORT

Introduction

The Company acts as a corporate underwriting member at Lloyd's. During the year in question, the Company participated on two syndicates, Syndicates 1991 and 3330, which are managed by R&Q Managing Agency Limited, a fellow subsidiary of Randall & Quilter Investment Holdings Ltd.

The Company has entered into the following quota share reinsurance arrangements in respect of the Company's participation on the above syndicates with R&Q Re (Bermuda) Limited, a fellow subsidiary.

	Year of account		
	2016	2015	2014
Syndicate 1991	70%	70%	70%
Syndicate 3330	-	-	70%

Business Review

Results

The Financial Statements incorporate the annual accounting result of the syndicates on which the Company participates for the 2014, 2015 and 2016 years of account.

Future Developments

The Company continues to write insurance business in the Lloyd's insurance market as a corporate underwriting member of Lloyd's. The capacity being underwritten on the 2017 year of account is £30.7m on Syndicate 1991 (2016 year of account: £17.7m), an increase of £13.0m compared to the 2016 year of account, and £3.0m on Syndicate 3330 (which reinsured the 2014 year of account of the syndicate). For the 2016 year of account the Company has a syndicate participation on Syndicate 1991. Details of the Company's syndicate participations are given in Note 23 to the Financial Statements.

Key Performance Indicators

The Directors consider the following to be the key performance indicators of the Company:

	2016	2015
	£	£
Capacity (youngest underwriting year)	17,692,775	19,900,000
Profit/(loss) after tax	(1,255,006)	1,371,611
Underwriting (loss) of latest closed pure year (after quota share)	(1,816,786)	(606,502)
As a % of capacity	(5.5)%	(3.0)%
Gross premium written as a % of capacity	83.9%	58.4%
Funds at Lloyd's (FAL) as a % of capacity	91.3%	112.5%

STRATEGIC REPORT (CONTINUED)

Other Performance Indicators

As a result of the nature of this Company as a Lloyd's Corporate Member the majority of its activities are carried out by the Syndicates in which it participates. The Company is not involved directly in the management of the Syndicates' activities, including employment of Syndicate staff, as these are the responsibility of the Managing Agent, R&Q Managing Agency Limited. The Managing Agent also has responsibility for the environmental activities of each Syndicate, although by their nature insurers do not produce significant environmental emissions. As a result, the Directors of the Company do not consider it appropriate to monitor and report any performance indicators in relation to staff or environmental matters.

Risk Management

As a corporate member of Lloyd's the majority of the risks to this Company's future cash flows arise from its participation in the results of Lloyd's syndicates. As detailed in Note 3 to the Financial Statements, these risks are mostly managed by the Managing Agent of the syndicates. This Company's role in managing this risk is limited to selection of syndicate participations and monitoring performance of the syndicates.

This report was approved by the board and signed on its behalf by

INDEPENDENT AUDITORS REPORT

Independent Auditor's report to the shareholders of R&Q Capital No. 1 Limited

We have audited the Financial Statements of R&Q Capital No. 1 Limited for the year ended 31 December 2016 which comprise the Statement of Income and Retained Earnings, the Statement of Financial Position, Statement of Changes in Equity and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and FRS 103 "Insurance Contracts".

This report is made solely to the Company's shareholders, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's shareholders as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of Directors and Auditors

As explained more fully in the Statement of Directors' Responsibilities, the Company's Directors are responsible for the preparation of the Financial Statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the Financial Statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit

An audit involves obtaining evidence about the amounts and disclosures in the Financial Statements sufficient to give reasonable assurance that the Financial Statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of whether the Accounting Policies are appropriate to the Company's circumstances, and have been consistently applied and adequately disclosed, the reasonableness of significant accounting estimates made by the Directors, and the overall presentation of the Financial Statements. In addition, we read all the financial and non-financial information in the Annual Report to identify material inconsistencies with the audited Financial Statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on Financial Statements

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 December 2016 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

INDEPENDENT AUDITORS REPORT (continued)

Opinion on other matter prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic Report and the Report of the Directors for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic Report and the Report of the Directors have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic Report and the Report of the Directors.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the Financial Statements are not in agreement with the accounting records and returns; or
- certain disclosures of Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

NOTES TO THE FINANCIAL STATEMENTS

General information

The Company is a private company limited by shares that is incorporated in England and whose registered office is 71 Fenchurch Street, London, EC3M 4BS. The Company participates in insurance business as an underwriting member of various syndicates at Lloyd's.

1. Accounting Policies

1.1 Basis of Preparation

The Financial Statements are prepared under the historical cost basis of accounting modified by the recognition of certain financial assets and liabilities measured at fair value.

The Financial Statements have been prepared in accordance with United Kingdom Accounting Standards, including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", FRS 103 "Insurance Contracts", the Companies Act 2006 and Schedule 3 of the Large and Medium sized Companies and Groups (Accounts and Reports) Regulations, relating to insurance. In accordance with FRS 103, the Company has applied existing accounting policies for insurance contracts.

No cash flow statement is presented since FRS 102 exempts the Company from the requirement to do so as the consolidated Financial Statements of Randall & Quilter Investment Holdings Ltd, the ultimate parent Company, include a cash flow statement.

Accounting information in respect of the Syndicates' participations has been provided by the Syndicates' managing agent and has been reported upon by the Syndicates' auditors.

1.2 Going Concern

The Company participates as an underwriting member at Lloyd's on the open 2015 and 2016 years of account, and has continued this participation on the 2017 year of account for both Syndicates 1991 and 3330. The Company's underwriting is supported by Funds at Lloyd's totalling £30,745,509 (2015: £22,389,000). The Company has net assets at the balance sheet date of £874,632 (2015: £2,129,638). The Directors have a reasonable expectation that the Company has adequate resources to meet its underwriting and other operational obligations for the foreseeable future. Accordingly they continue to adopt the going concern basis of accounting in preparing the annual Financial Statements.

1.3 Basis of Accounting

The Financial Statements are prepared using the annual basis of accounting. Under the annual basis of accounting a result is determined at the end of each accounting period reflecting the profit or loss from providing insurance coverage during that period and any adjustments to the profit or loss of providing insurance cover during earlier accounting periods.

Amounts reported in the general business technical account relate to movements in the period in respect of all relevant years of account of the Syndicates on which the Company participates.

NOTES TO THE FINANCIAL STATEMENTS

1. Accounting Policies (continued)

1.3 Basis of Accounting (continued)

Assets and liabilities arising as a result of the underwriting activities are mainly controlled by the Syndicates' managing agent. Accordingly, these assets and liabilities have been shown separately in the balance sheet as "Syndicate Participation". In addition the quota share premium amounts due from or to the quota share reinsurer, as shown in notes 12 or 17, are also included in the "Syndicate Participation" column. Other assets and liabilities are shown as "Corporate". The syndicate assets are held subject to trust deeds for the benefit of the Syndicates' insurance creditors.

1.4 General Business

The information included in these Financial Statements in respect of the Syndicates has been supplied by the Managing Agent based upon the various accounting policies they have adopted. The following describes the policies they have generally adopted.

a) **Premiums**

Premiums written comprise the total premiums receivable in respect of business incepted during the year, together with any differences between booked premiums for prior years and those previously accrued, and include estimates of premiums due but not yet received or notified to the syndicates on which the Company participates, less an allowance for cancellations. All premiums are shown gross of commission payable to intermediaries and exclude taxes and duties levied on them.

b) **Unearned Premiums**

Written premium is earned according to the risk profile of the policy. Unearned premiums represent the proportion of premiums written in the year that relate to unexpired terms of policies in force at the balance sheet date, calculated on a time apportionment basis having regard where appropriate, to the incidence of risk. The specific basis adopted by each syndicate is determined by the managing agent.

c) **Deferred Acquisition Costs**

Acquisition costs, which represent commission and other related expenses, are deferred over the period in which the related premiums are earned.

d) **Reinsurance Premiums**

Outwards reinsurance premiums consist of: (a) the Company's share of the Syndicates' reinsurance premiums on the outwards contracts bound during the year, and (b) the Company's net reinsurance premiums on the quota share reinsurance contract.

e) **Claims Incurred and Reinsurers' Share**

Claims incurred comprise claims and settlement expenses (both internal and external) occurring in the year and changes in the provisions for outstanding claims, including provisions for claims incurred but not reported and settlement expenses, together with any other adjustments to claims from previous years. Where applicable, deductions are made for salvage and other recoveries.

NOTES TO THE FINANCIAL STATEMENTS

1. Accounting Policies (continued)

e) **Claims Incurred and Reinsurers' Share (continued)**

The provision for claims outstanding comprises amounts set aside for claims notified and claims incurred but not yet reported (IBNR). The amount included in respect of IBNR is based on statistical techniques of estimation applied by each syndicates' in house reserving team and reviewed by external consulting actuaries. These techniques generally involve projecting from past experience the development of claims over time to form a view of the likely ultimate claims to be experienced for more recent underwriting, having regard to variations in the business accepted and the underlying terms and conditions. The provision for claims also includes amounts in respect of internal and external claims handling costs. For the most recent years, where a high degree of volatility arises from projections, estimates may be based in part on output from rating and other models of the business accepted and assessments of underwriting conditions.

The reinsurers' share of provisions for claims is based on calculated amounts of outstanding claims and projections for IBNR, net of estimated irrecoverable amounts, having regard to each syndicates' reinsurance programme in place for the class of business, the claims experience for the year and the current security rating of the reinsurance companies involved. Each syndicate uses a number of statistical techniques to assist in making these estimates.

Accordingly the two most critical assumptions made by each syndicate's managing agent as regards claims provisions are that the past is a reasonable predictor of the likely level of claims development and that the rating and other models used including pricing models for recent business are reasonable indicators of the likely level of ultimate claims to be incurred.

The level of uncertainty with regard to the estimations within these provisions generally decreases with time since the underlying contracts were exposed to new risks. In addition the nature of short tail claims such as property where claims are typically notified and settled within a short period of time will normally have less uncertainty after a few years than long tail risks such as some liability business where it may be several years before claims are fully advised and settled. In addition to these factors if there are disputes regarding coverage under policies or changes in the relevant law regarding a claim this may increase the uncertainty in the estimation of the outcomes.

The assessment of these provisions is usually the most subjective aspect of an insurer's accounts and may result in greater uncertainty within an insurer's accounts than within those of many other businesses. The provisions for gross claims and related reinsurance recoveries have been assessed on the basis of the information currently available to the directors of each syndicate's managing agent. However, ultimate liability will vary as a result of subsequent information and events and this may result in significant adjustments to the amounts provided. Adjustments to the amounts of claims provisions established in prior years are reflected in the financial statements for the period in which the adjustments are made. The provisions are not discounted for the investment earnings that may be expected to arise in the future on the funds retained to meet the future liabilities. The methods used, and the estimates made, are reviewed regularly.

NOTES TO THE FINANCIAL STATEMENTS

1. Accounting Policies (continued)

f) **Unexpired Risks Provision**

Provisions for unexpired risks are made where the costs of outstanding claims, related expenses and deferred acquisition costs are expected to exceed the unearned premium provision carried forward at the balance sheet date. The provision for unexpired risks is calculated separately by reference to classes of business which are managed together, after taking into account any relevant investment return. The provision is made on a syndicate by syndicate basis by the relevant managing agent.

g) **Closed Years of Account**

At the end of the third year, the underwriting account is normally closed by reinsurance into the following year of account. The amount of the reinsurance to close premium payable is determined by the managing agent, generally by estimating the cost of claims notified but not settled at 31 December, together with the estimated cost of claims incurred but not reported at that date, and an estimate of future claims handling costs. Any subsequent variation in the ultimate liabilities of the closed year of account is borne by the underwriting year into which it is reinsured.

The payment of a reinsurance to close premium does not eliminate the liability of the closed year for outstanding claims. If the reinsuring syndicate was unable to meet its obligations, and the other elements of Lloyd's chain of security were to fail, then the closed underwriting account would have to settle any outstanding claims.

The Directors consider that the likelihood of such a failure of the reinsurance to close is extremely remote, and consequently the reinsurance to close has been deemed to settle the liabilities outstanding at the closure of an underwriting account. The Company has included its share of the reinsurance to close premiums payable as technical provisions at the end of the current period, and no further provision is made for any potential variation in the ultimate liability of that year of account.

h) **Run-off Years of Account**

Where an underwriting year of account is not closed at the end of the third year (a "run-off" year of account) a provision is made for the estimated cost of all known and unknown outstanding liabilities of that year. The provision is determined initially by the managing agent on a similar basis to the reinsurance to close. However, any subsequent variation in the ultimate liabilities for that year remains with the corporate member participating therein. As a result any run-off year will continue to report movements in its results after the third year until such time as it secures a reinsurance to close.

i) **Net Operating Expenses (including Acquisition Costs)**

Net operating expenses include acquisition costs, profit and loss on exchange and other amounts incurred by the syndicates on which the Company participates.

Acquisition costs, comprising commission and other costs related to the acquisition of new insurance contracts, are deferred to the extent that they are attributable to premiums unearned at the Balance Sheet date.

NOTES TO THE FINANCIAL STATEMENTS

1. Accounting Policies (continued)

j) **Distribution of Profits and Collection of Losses**

Lloyd's operates a detailed set of regulations regarding solvency and the distribution of profits and payment of losses between syndicates and their members. Lloyd's continues to require membership of syndicates to be on an underwriting year of account basis and profits and losses belong to members according to their membership of a year of account. Normally profits and losses are transferred between the syndicate and members after results for a year of account are finalised after 36 months. This period may be extended if a year of account goes into run-off. A syndicate may make earlier on account distributions or cash calls according to the cash flow of a particular year of account and subject to Lloyd's requirements.

k) **Financial Instruments**

The syndicates' investments comprise debt and equity investments, derivatives, cash and cash equivalents and loans and receivables. The debt, equity investments and derivatives of the syndicate participation are measured at fair value through profit or loss.

Debtors/creditors arising from insurance/reinsurance operations shown in the Balance Sheet include the totals of all the syndicates' outstanding debit and credit transactions as processed by the syndicate or through the Lloyd's central facility. No account has been taken of any offsets which may be applicable in calculating the net amounts due between the syndicates and each of their counterparty insureds, reinsurers or intermediaries as appropriate.

Recognition

Financial assets and liabilities are recognised when the syndicate becomes party to the contractual provisions of the instrument. Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the syndicate after deducting all of its liabilities.

Initial measurement

All financial assets and liabilities are initially measured at transaction price (including transaction costs), except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value (which is normally the transaction price excluding transaction costs), unless the arrangement constitutes a financing transaction. If an arrangement constitutes a financing transaction, the financial asset or liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Subsequent measurement

Non-current debt instruments are subsequently measured at amortised cost using the effective interest method.

NOTES TO THE FINANCIAL STATEMENTS

1. Accounting Policies (continued)

k) **Financial Instruments (continued)**

Debt instruments that are classified as payable or receivable within one financial year and which meet the above conditions are measured at the undiscounted amount of the cash or other consideration expected to be paid or received.

Other debt instruments are measured at fair value through profit or loss.

Derecognition of financial assets and liabilities
Financial assets are derecognized when and only when a) the contractual rights to the cash flow from the financial asset expire or are settled, b) the syndicates transfer to another party substantially all of the risks and rewards of ownership of the financial asset, or c) the syndicates, despite having retained some significant risks and rewards of ownership, have transferred control of the asset to another party and the other party has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer.

Financial liabilities are derecognized only when the obligation specified in the contract is discharged, cancelled or expires.

Fair value measurement
The best evidence of fair value is a quoted price for an identical asset in an active market. When quoted prices are unavailable, the price of a recent transaction for an identical asset provides evidence of fair value as long as there has not been a significant change in economic circumstances or a significant lapse in time since the transaction took place. If the market is not active and recent transactions of an identical asset on their own are not a good estimate of fair value, the syndicates estimate the fair value by using a valuation technique.

Impairment of financial instruments measured at amortised cost or cost
For financial assets carried at amortised cost, the amount of an impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate, i.e. using the effective interest method.

For financial assets carried at cost less impairment, the impairment loss is the difference between the asset's carrying amount and the best estimate of the amount that would be received for the asset if it were to be sold at the reporting date.

Where indicators exist for a decrease in impairment loss, and the decrease can be related objectively to an event occurring after the impairment was recognised, the prior impairment loss is tested to determine reversal. An impairment loss is reversed on an individual impaired financial asset to the extent that the revised recoverable value does not lead to a revised carrying amount higher than the carrying value had no impairment been recognised. The amount of the reversal is recognised in profit and loss immediately.

NOTES TO THE FINANCIAL STATEMENTS

1. Accounting Policies (continued)

l) **Investment Return**

Investment return comprises all investment income, realised investment gains and losses and movements in unrealised gains and losses, net of investment expenses and charges.

Realised and unrealised gains and losses are measured by reference to the original cost of the investment if purchased in the year, or if held at the beginning of the year by reference to the current value at that date.

Investment return is initially recorded in the non-technical account. A transfer is made from the non-technical account to the general business technical account to reflect the investment return on funds supporting the underwriting business.

m) **Basis of currency translation**

The presentation and functional currency of the Company is Pound Sterling, which is the currency of the primary economic environment in which it operates. Supported syndicates may have different functional currencies.

Income and expenditure in US dollars, Euros, Canadian dollars, Australian dollars and New Zealand dollars is translated at the average rate of exchange for the year. Underwriting transactions denominated in other foreign currencies are included at the rate of exchange ruling at the date the transaction is processed.

Monetary assets and liabilities are translated into Pound Sterling at the rates of exchange at the financial reporting date.

1.5 Taxation

The Company is taxed on its results including its share of underwriting results declared by the syndicates and these are deemed to accrue evenly over the calendar year in which they are declared. The syndicate results included in these financial statements are only declared for tax purposes in the calendar year following the normal closure of the year of account. No provision is made for corporation tax in relation to open years of account. However, full provision is made for deferred tax on underwriting results not subject to current corporation tax.

The taxable results of the syndicates at a syndicate level are calculated by the managing agent and computations submitted to HM Revenue & Customs (HMRC). Any adjustments that may be necessary to the tax provisions established by the Company, as a result of any HMRC enquiry into these computations, will be reflected in the financial statements of subsequent periods.

NOTES TO THE FINANCIAL STATEMENTS

1. Accounting Policies (continued)

1.6 Deferred Taxation
Deferred tax is provided in full on timing differences which result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date. Tax is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the period end.

Deferred tax assets are recognised to the extent that it is regarded as probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

1.7 Cash and Cash Equivalents
Cash and cash equivalents include deposits held at call with banks, other short-term liquid investments with original maturities of three months or less and cash in hand.

1.8 Share Capital
Ordinary share capital is classified as equity.

1.9 Distributions
Dividend distributions to the Company's shareholders are recognised in the Financial Statements in the period in which the dividends are approved by the shareholders.

2. Key accounting judgements and estimation uncertainties

In applying the Company's accounting policies, the Directors are required to make judgements, estimates and assumptions in determining the carrying amounts of assets and liabilities. These judgements, estimates and assumptions are based on the best and most reliable evidence available at the time when the decisions are made, and are based on historical experience and other factors that are considered to be applicable. Due to the inherent subjectivity involved in making such judgements, estimates and assumptions, the actual results and outcomes may differ. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

The measurement of the provision for claims outstanding is the most significant judgement involving estimation uncertainty regarding amounts recognised in these Financial Statements in relation to underwriting by the syndicates and this is disclosed further in Note 3.

The management and control of each Syndicate is carried out by the managing agent of that Syndicate, and the Company looks to the managing agent to implement appropriate policies, procedures and internal controls to manage each Syndicate.

NOTES TO THE FINANCIAL STATEMENTS

3. Risk management

This section summarises the financial and insurance risks the Company is exposed to either directly at the corporate level or indirectly via its participation in the Lloyd's syndicates.

Risk background

The syndicates' activities expose them to a variety of financial and non-financial risks. The managing agent is responsible for managing the syndicates' exposure to these risks and, where possible, introducing controls and procedures that mitigate the effects of the exposure to risk. Each year, the managing agent prepares a Lloyd's Capital Return ("LCR") for the syndicates, the purpose of this being to agree capital requirements with Lloyd's based on an agreed assessment of the risks impacting the syndicates' business, and the measures in place to manage and mitigate those risks from a quantitative and qualitative perspective. The risks described below are typically reflected in the LCR, and, typically, the majority of the total assessed value of the risks concerned is attributable to insurance risk.

The insurance risks faced by a syndicate include the occurrence of catastrophic events, downward pressure on pricing of risks, reductions in business volumes and the risk of inadequate reserving. Reinsurance risks arise from the risk that a reinsurer fails to meet their share of a claim. The management of the syndicates' funds is exposed to risks of investment, liquidity, currency and interest rates leading to financial loss. The syndicates are also exposed to regulatory and operational risks including their ability to continue to trade. However, supervision by Lloyd's provides additional controls over the syndicates' management of risks.

The Company manages the risks faced by the syndicates on which it participates by monitoring the performance of the syndicates it supports. This commences in advance of committing to support a syndicate for the following year, with a review of the business plan prepared for each syndicate by its managing agent. In addition, quarterly reports and annual accounts together with any other information made available by the managing agent are monitored and if necessary enquired into. If the Company considers that the risks being run by the syndicates are excessive it will seek confirmation from the managing agent that adequate management of the risk is in place and, if considered appropriate will withdraw support from the next underwriting year.

The Company has entered into a quota share reinsurance arrangement with another Group company to support its underwriting capacity. The Directors believe that the risk of failure of this reinsurance arrangement is low.

The analysis below provides details of the financial risks the Company is exposed to from syndicate insurance activities as required by FRS 103 and also provides further analysis of sensitivities to reserving and underwriting risks.

NOTES TO THE FINANCIAL STATEMENTS

3. Risk management (continued)

Syndicate risks

i. **Liquidity risk**

The syndicates are exposed to daily calls on their available cash resources, principally from claims arising from their insurance business. Liquidity risk arises where cash may not be available to pay obligations when due, or to ensure compliance with the syndicates' obligations under the various trust deeds to which it is party.

The syndicates aim to manage their liquidity position so that they can fund claims arising from significant catastrophic events, as modelled in its Lloyd's realistic disaster scenarios ("RDS").

ii. **Interest rate and equity price risk**

Interest rate risk and equity price risk are the risks that the fair value of future cash flows of financial instruments will fluctuate because of changes in market interest rates and market prices, respectively. The Company and syndicates seek to minimise their exposure to these risks by maintaining an appropriate mix between equity and debt financial instruments, by investing in both fixed and floating rate investments, and by investing in a large portfolio of high quality equity investments across of range of unrelated sectors.

iii. **Currency risk**

The syndicates' main exposure to foreign currency risk arises from insurance business originating overseas, primarily denominated in Euros and US dollars. Transactions denominated in Euros and US dollars form a significant part of the syndicates' operations. This risk is, in part, mitigated by the syndicates maintaining financial assets denominated in Euros and US dollars against its major exposures in those currencies.

The table below provides details of syndicates' assets and liabilities by currency:

2016	GBP £'000 converted	USD £'000 converted	EUR £'000 converted	CAD £'000 converted	Other £'000 converted	Total £'000 converted
Total assets	7,031	28,361	2,235	2,048	161	39,836
Total liabilities	(10,061)	(28,412)	(2,307)	(1,609)	(527)	(42,915)

Surplus/(deficiency)of assets	(2,233)	90	(44)	338	(273)	(2,123)

NOTES TO THE FINANCIAL STATEMENTS

3. Risk management (continued)

iii. **Currency risk (continued)**

The impact of a 5% change in exchange rates between GBP and other currencies would be an increase or decrease of £0.00m on the result for the year (2015: £0.00m).

iv. **Credit risk**

Credit ratings of syndicate assets relating directly to insurance activities, excluding cash at bank and financial investments, which are neither due nor impaired are as follows:

	AAA £'000	AA £'000	A £'000	BBB or lower £'000	Not rated £'000	Total £'000
2016						
Reinsurers share of claims outstanding	47	506	2,751	19	(12)	3,311
Reinsurance debtors	12	133	195	7,226	29	7,595
Insurance debtors	9	91	1,815	3	(2)	1,916

	Neither due nor impaired £'000	Up to three months £'000	Three months to one year £'000	Greater than one year £'000	Financial assets that have been impaired £'000	Total £'000
2015						
Reinsurers share of claims outstanding	3,598	12	-	-	(5)	3,605
Reinsurance debtors	5,515	19	6	-	2	5,542
Insurance debtors	1,950	64	43	30	(1)	2,086
Total	11,063	95	49	30	(4)	11,233

Company risks

i. **Investment, credit, liquidity and currency risks**

The other significant risks faced by the Company are with regard to the investment of the available funds within its own custody. The elements of these risks are investment risk, credit risk, liquidity risk, currency risk and interest rate risk. The main liquidity risk would arise if a syndicate had inadequate liquid resources for a large claim and sought funds from the Company to meet the claim.

Funds at Lloyd's have been deposited by other Group companies and third-parties on behalf of the Company.

NOTES TO THE FINANCIAL STATEMENTS

3. Risk management (continued)

ii. **Regulatory risks**

The Company is subject to continuing approval by Lloyd's to be a member of Lloyd's and of Lloyd's syndicates. The risk of this approval being removed is mitigated by monitoring and fully complying with all requirements in relation to membership of Lloyd's. The capital requirements to support the proposed amount of syndicate capacity for future years are subject to the requirements of Lloyd's. A variety of factors are taken into account by Lloyd's in setting these requirements including market conditions and syndicate performance and although the process is intended to be fair and reasonable, the requirements can fluctuate from one year to the next, which may constrain the volume of underwriting the Company is able to support.

iii. **Operational risks**

As there are relatively few transactions actually undertaken by the Company there are only limited systems and operational requirements of the Company and therefore operational risks are not considered to be significant. Close involvement of all Directors in the Company's key decision making and the fact that the majority of the Company's operations are conducted by syndicates, provides control over any remaining operational risks.

Assumptions, changes in assumptions and sensitivity

As described in Note 3 the majority of the risks to the Company's future cash flows arise from its participation in the results of Lloyd's syndicates and are mostly managed by the managing agents of the syndicates. The Company's role in managing these risks is limited to a selection of syndicate participations and monitoring the performance of the syndicates and their managing agent.

NOTES TO THE FINANCIAL STATEMENTS

6. Technical provisions (continued)

The amounts carried by the Company arising from insurance contracts are calculated by the managing agent of the syndicates and derived from accounting information provided by the managing agent and reported upon by the syndicate auditors.

The key assumptions underlying the amounts carried by the Company arising from insurance contracts are:

- the net premiums written calculated by the managing agent are an accurate assessment of the premiums payable as a result of the risks contractually committed to up to the Balance Sheet date;
- the net unearned premiums calculated by the managing agent are an accurate assessment of the net premiums written that reflect the exposure to risks arising after the Balance Sheet date, including appropriate allowance for anticipated losses in excess of the unearned premium;
- the claims reserves calculated by the managing agent are an accurate assessment of the ultimate liabilities in respect of claims relating to events up to the Balance Sheet date.

There have been no changes to these assumptions in 2016.

The amounts carried by the Company arising from insurance contracts are sensitive to various factors as follows:

- a 5% increase/decrease in net earned premium (with all other underwriting elements assumed to change pro-rata with premium) will increase/decrease the Company's pre-tax profit/loss by £250,588 (2015: £136,311) following application of the quota share reinsurance agreement;
- a 5% increase/decrease in the managing agent's calculation of gross claims reserves will decrease/increase the Company's pre-tax profit/loss by £417,840 (2015: £332,874) following application of the quota share reinsurance agreement
- a 5% increase/decrease in the managing agent's calculation of net claims reserves will decrease/increase the Company's pre-tax profit/loss by £368,169 (2015: £278,800) following application of the quota share reinsurance agreement).

The 5% movement has been selected to give an indication of the possible variations in the assumptions used.

9. Profit/(Loss) on Ordinary Activities before Taxation

	2016 £	2015 £
This is stated after charging:		
Directors' remuneration	-	-
Auditors' remuneration - audit of the Financial Statements	-	11,000
Exchange (gain) or loss – Non-Technical Account	-	33,421

The Company has no employees. One director received remuneration of £Nil (2015: £85,000). Other director's costs and other expenses, including audit fees of £11,000, are borne by a fellow group undertaking and no re-charges are made to the Company.

10. Taxation

Analysis of (credit)/charge in the year	2016 £	2015 £
Current tax:		
Adjustments in respect of prior years	-	51,905
Foreign tax	-	(4,831)
Total current tax	-	47,074
Deferred tax:		
Origination and reversal of timing differences	(349,927)	(1,675,222)
Effects of change in tax rate on opening liability	42,457	-
Tax on profit/(loss) on ordinary activities	(307,470)	(1,628,148)

NOTES TO THE FINANCIAL STATEMENTS

10. Taxation (continued)

Factors affecting tax charge for the year	2016 £	2015 £
The tax assessed for the year is different to the standard rate of corporation tax in the UK. The differences are explained below:		
Loss on ordinary activities before tax	(1,562,476)	(256,537)
Loss on ordinary activities multiplied by standard rate of corporation tax in the UK of 20% (2015: 20.25%)	(312,495)	(51,949)
Effects of:		
Timing difference on underwriting profits	(7,105)	76,941
Foreign tax	-	(4,831)
Trading losses carried forward	12,130	-
Adjustments in respect of prior years	-	51,905
Group relief not charged	-	(1,700,214)
Current tax charge/(credit) for the year	(307,470)	(1,628,148)

Factors that may affect future tax charges

The Company has trading losses of £606,501 (2015: £Nil) available for carry forward against future profits, which if utilised, should reduce tax payments in subsequent years.

The results of the Company's participation on the 2014, 2015 and 2016 years of account will not be assessed to tax until the year ended 31 December 2017, 2018 and 2019 respectively being the year after the normal date of closure of each year of account.

The above charge for foreign taxes has been estimated after making provision for double taxation relief with the UK. However, due to the differences of timings and tax rates some foreign taxes may ultimately not be fully recoverable.

NOTES TO THE FINANCIAL STATEMENTS

11. Investments

Other Financial Investments – Syndicate

	2016		2015	
	Market value	Cost	Market value	Cost
	£	£	£	£
Shares and other variable yield securities and units in unit trusts	428,001	428,001	3,041,673	3,041,673
Debt securities and other fixed income securities	2,033,719	2,042,498	901,973	901,973
Participation in investment pools	2,390,301	2,387,066	-	-
Deposits with credit institutions	434,021	434,021	387,519	387,519
	5,286,042	5,291,586	4,331,165	4,331,165
Listed investments included within the above	5,286,042	5,291,586	4,331,165	4,331,165

The Company uses the following hierarchy for determining and disclosing the fair value of financial investments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets.
Level 2: prices based on recent transactions in identical assets.
Level 3: prices determined using a valuation technique.

All of the syndicate's financial investments are classified as Level 1.

NOTES TO THE FINANCIAL STATEMENTS

21. Related Party Transactions

The Company has taken advantage of the exemption conferred by paragraph 33.1A of FRS 102 and does not disclose details of transactions with other companies which are wholly owned by the group.

There are no other related party transactions to disclose.

22. Funds at Lloyd's

The Company's Lloyd's underwriting is supported by funds at Lloyd's of £23,745,509 (2015: £15,389,000) of which £13,744,605 is held in the name of R&Q Re (Bermuda) Limited, RQIH Ltd and R&Q Insurance (Malta) Limited and £10,000,904 has been provided by an independent reinsurer under a quota share reinsurance arrangement. A further £7,000,000 (2015: £7,000,000) is provided by letter of credit by an independent reinsurer under an excess of loss reinsurance arrangement.

The Company has entered into a Lloyd's Deposit Trust Deed which gives the Corporation the right to apply these monies in settlement of any claims arising from the participation on the syndicates. These monies can only be released from the provision of this Deed with Lloyd's express permission and only in circumstances where the amounts are either replaced by an equivalent asset, or after the expiration of the Company's liabilities in respect of its underwriting.
