The Alliance for Beverage Cartons and the Environment Limited

Company Limited by Guarantee

Notes to the Financial Statements

Year ended 31 December 2025

1. General information

The company is a private company limited by guarantee, registered in England and Wales. The address of the registered office is 3rd Floor, 1 Ashley Road, Altrincham, Cheshire, WA14 2DT.

2. Statement of compliance

These financial statements have been prepared in compliance with Section 1A of FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland'.

3. Accounting policies

Basis of preparation

The financial statements have been prepared on the historical cost basis.

Investments

The company's investment in its wholly owned subsidiary, ReCarton UK Limited, is recognised at cost of £1, representing the nominal consideration. The investment is reviewed annually for impairment and carried at cost less any impairment losses.

Disclosure exemptions

The company has applied Section 1A of FRS 102 and has therefore taken advantage of the reduced disclosure requirements available to small entities: (a) No cash flow statement has been presented for the company. (b) Disclosures required by FRS 102 in respect of financial instruments have not been presented. (c) No disclosure has been given for the aggregate remuneration of key management personnel.

Consolidation

The company has taken advantage of the option not to prepare consolidated financial statements contained in Section 398 of the Companies Act 2006 on the basis that the company and its subsidiary undertakings comprise a small group.

Revenue recognition

The turnover shown in the accounts is member funding which represents contributions from members, excluding Value Added Tax.

Taxation

Current tax represents the amount of corporation tax payable (or recoverable) in respect of taxable profits for the period, using tax rates and laws enacted or substantively enacted at the balance sheet date. The company's activities are non-trading in nature, and it does not generally incur corporation tax. Where taxable income arises, it is recognised in profit or loss at the applicable rate. No tax charge has arisen in the current or prior period. Deferred tax is recognised on timing differences between the treatment of items in the financial statements and for taxation purposes. No deferred tax has been recognised as no material timing differences have arisen.

Operating leases

Lease payments are recognised as an expense over the lease term on a straight-line basis. The aggregate benefit of lease incentives is recognised as a reduction to expense over the lease term, on a straight-line basis.

Tangible assets

Tangible assets are initially recorded at cost, and subsequently stated at cost less any accumulated depreciation and impairment losses. An increase in the carrying amount of an asset as a result of a revaluation, is recognised in other comprehensive income and accumulated in equity, except to the extent it reverses a revaluation decrease of the same asset previously recognised in profit or loss. A decrease in the carrying amount of an asset as a result of revaluation, is recognised in other comprehensive income to the extent of any previously recognised revaluation increase accumulated in equity in respect of that asset. Where a revaluation decrease exceeds the accumulated revaluation gains accumulated in equity in respect of that asset, the excess shall be recognised in profit or loss.

Depreciation

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Computer equipment	-	Straightline over 3 years
--------------------	---	---------------------------

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

Defined contribution plans

Contributions to defined contribution plans are recognised as an expense in the period in which the related service is provided. Prepaid contributions are recognised as an asset to the extent that the prepayment will lead to a reduction in future payments or a cash refund. When contributions are not expected to be settled wholly within 12 months of the end of the reporting date in which the employees render the related service, the liability is measured on a discounted present value basis. The unwinding of the discount is recognised as a finance cost in profit or loss in the period in which it arises.
